

NG JJIS – Screen design kickoff meeting
2008-05-23 Hawaii Meeting Notes

ATTENDEES

Chaves, Sharen	Hawaii Police Department
Higa, Elayne	Family Court, Hilo
Kitaoka, Guy	Family Court, Kona
Landgraf, Noela	Hawaii County Prosecutors
Paiva, Lana	Family Court, Hilo
Trusdell, Tharry	Hawaii County Prosecutors
Urakami, Yolanda	Family Court, Hilo
Freitas, Mark	ISDI Technologies
Malick, Greg	JJIS
Martin, Linda	JJIS

SEARCH

- Ability to search on Alias type
- Ability to search for specific Middle Name
- Question: How does one search on names with multiples names and/or hyphens?
 - Recommend use of Sounds Like option using `"*[name]*"`, e.g. if name is Janet-Shana or Shana-Janet use `"*Shana*"` or `"*Janet*"`

SEARCH RESULTS

- Question: What will be the result if both name criteria and ID are entered?
- If only displaying a single line on the Search Results screen, display the legal name if it exists (from FC)
- If no legal name exists, display the most recent name provided

DEMOGRAPHIC INFORMATION

- Ability to capture and distinguish Residence vs. Mailing address
- Ability to cross-check address with who they're living with, e.g. living with foster parent but may give residential address of aunt

JUVENILE HISTORY

- Would like to see Probation information with Earned/Unearned; for example could it display on Offense Info between DISPO and DATE (Note: a further explanation

by Lana Paiva clarified that this requires the FC JUSTIS system to be modified. Then this information could be sent and displayed in the NG JJIS).

- Question: Would it be beneficial for agency systems to send Notes? Could it capture the reason why something was Withdrawn?
- Ability to filter on Missing/Wanted Information
- Display "Open" items, e.g. WAR, at top and easily seen
- If juvenile has "Open" items, would like to see them on the Search Results screen in Red and easily seen, e.g. have it flashing

GENERAL

- How do agency users bring request items to the JJIC if there is information that they would like to see in the JJIS?
- For Agency abbreviation, could it display consistently among the different types? Use of 3PD, 3PA and 3FC rather than HCPD, HCPA and FC.
