Martin, Linda	JJIS

SEARCH

- SSN:
 - May be a good identifier, or at least provide additional information for identification; even a partial SSN, i.e. the last 4 digits, may be helpful
 - Some agencies no longer request this information from the juvenile or enter this info
 - May have issues with juvenile not providing the correct information
 - Questions: Is it possible to capture HI Driver's License # and/or DMV photo?

SEARCH RESULTS

- Agency Codes – prefer use current codes, e.g. MPD vs. 2PD. However, HPD1 and HPD3 may be useful for the current HPD and HCPD.
- Include address info to help identify juvenile when there are multiple juveniles with similar names
- Multi-line vs. single-line display for a juvenile—no particular preference

JUVENILE HISTORY

ASSOCIATED PERSON

- Display associated person address and phone information when you click on a name on the summary display
- Ability to cross-reference juvenile address with current person living with

OFFENSE INFORMATION

- Display section code
- Display the following totals for offenses by severity:
 - Adjudications
 - Non-adjudications
 - Pending
- Display with the most serious first; this would also work as a customized preference
- Display most recent contact information with the ability to sort dynamically, e.g. by clicking on a column heading
- Ability to filter by clicking, e.g. Adjudicated Felonies
- Ability to know if the juvenile is violent, suicidal, etc; similar to Flag information. It would be good to display on by the Offense Summary and up by Demographic Info

COURT INFORMATION

- Court Appearance information is helpful for the prosecutor
- Display Probation information at the top as well
- Court Appearance
 - Display the Hearing Type
 - Display if the juvenile did/didn't show, may be under disposition of "No Show"
- Ability to know who to contact if a juvenile is re-arrested and may be wanted for investigation by FC, i.e. "Wanted for Service of Petition". In some cases, FC is unable to contact the juvenile because the juvenile provided false contact information. Would like to have this information display at the top.

STAFF

- Include contact info for staff, e.g. phone number

GENERAL

Ability to monitor progress of NG JJIS screen design and provide feedback online
