## Caveats

Statistical crime reporting requires a number of rules to count events consistently. Multiple offenses may be committed in most opportunities for crime, and multiple charges may be attached to a single arrest. The statistics presented in this report were collected and compiled using the FBI's Hierarchy Rule that limits crime counts to only the most serious offense committed within an incident that is constrained by time and place, and limits arrest counts to only the most serious charge per booking. Therefore, some crimes may be underreported, e.g., if the victim is killed in a single-victim robbery situation, only murder is recorded, not the crime of robbery. Further details of the Hierarchy Rule are discussed in Footnote 1 on page 2.

The number of reported offenses corresponds to a victim count for only some types of offenses. Violent crimes generally employ the total victim count. Robberies, however, are counted by the incident, regardless of the number of victims. Property crimes also are generally counted by the incident, with the notable exceptions that a burglary is counted for each structure entered, and a motor vehicle theft for each vehicle stolen.

Some crimes are inherently difficult to classify. The Uniform Crime Reporting (UCR) definition of aggravated assault, for example, is complex and has been misinterpreted, resulting in large variations between agencies and between years.

These statistics were produced from the operations of Hawaii's four county police departments. Statistics of prosecutorial, court, and parole board decisions are reported separately, by those agencies.

It is strongly cautioned that year-to-year changes based on small numbers of events are likely to result in large percentage changes which typically are not as meaningful as they might appear at first glance.

An unappreciated difference in the time period covered by two different sets of statistics can lead to erroneous conclusions regarding underlying relationships. For example, an abrupt change in the "percent of offenses cleared" statistics, which link the volume of arrests to the volume of reported offenses, should be viewed with caution because offenses already reported in previous years may be counted as cleared, by arrest or exceptional means, in the current year. A clearance is further defined in Appendix A.

The distinction between resident and de facto population is a most important consideration in viewing *Crime in Hawaii*. Crime rates are based on the number of crimes per 100,000 residents. De facto population includes the number of persons physically present in the state: residents, tourists, and non-resident military personnel. Crime rates based on de facto population can be significantly different than rates based on resident population. The UCR program uses resident population to calculate crime rates for all states. However, because of Hawaii's relatively small resident population and large visitor population, crime rates based on resident population are much higher when compared to rates based on the actual number of people in the state.

These and other issues surrounding the collection and compilation of crime and arrest data can contribute to the misinterpretation of statistics presented in this report. We welcome the opportunity to address the validity of readers' interpretations involving these crime statistics. Please feel free to contact us:

## EXECUTIVE SUMMARY

Hawaii's Index Crime\* rate decreased considerably in 2004, down 8.5% from the rate reported for 2003.

A total of 63,665 Index Crimes were reported statewide in 2004, yielding a rate of 5,041.4 offenses per 100,000 resident population. The reported violent Index Crime rate in Hawaii decreased 4.1% in 2004, and the reported property Index Crime rate decreased 8.7%. Hawaii's total and property Index Crime rates in 2004 were, respectively, 30.4% and 31.1% below the rates reported a decade earlier (1995). The violent Index Crime rate fell 12.8% over the course of the decade.

In 2003, the latest year for which complete national data are available, Hawaii was ranked 2nd highest in the U.S. for the total Index Crime rate, 38th highest for the violent Index Crime rate, and 2nd highest for the property Index Crime rate. Perennially driving Hawaii's high property and total Index Crime rates is the offense of larceny-theft, for which Hawaii's rate was ranked the highest in the nation in 2003.

Other highlights of *Crime in Hawaii 2004* include the following:

- The rate of reported offenses for the violent Index Crimes of forcible rape and robbery respectively decreased 2.0%, and 17.9% in Hawaii in 2004, while murder and aggravated assault rate rose 49.4% and 3.6%, respectively. There were 3,274 violent Index Crimes reported in Hawaii in 2004, representing a rate of 259.3 offenses per 100,000 residents.
- Each of the property Index Crimes decreased in rate in Hawaii during 2004: burglary, -6.4%; larceny-theft, -8.8%; and motor vehicle theft, -11.0%. Hawaii's property Index Crime rate in 2004 was 4,782 offenses per 100,000 residents.
- The number of statewide Index Crime arrests decreased 8.6% in 2004. Arrests for violent Index Crimes and property Index Crimes decreased 4.6% and 9.4%, respectively.
- Based on the proportion of arrests (plus cases closed by "exceptional means") to reported offenses, the total clearance rate for reported Index Crimes remained at 11.5% in 2004, its second lowest level on record.
- Adult arrests comprised 70.7% of all Index Crime arrests in 2004; juvenile arrests accounted for 29.3%. *Crime in Hawaii 2004* also provides state and county data on the gender and race/ethnicity of arrestees.
- Index Crime arrest data provide the most consistent measure of the nature and extent of serious juvenile crime in Hawaii. Statewide juvenile Index Crime arrests remained at a historically very low level in 2004, with 2,159 arrests reported statewide, up slightly from the 2,113 arrests reported in 2003 and ending a 6-year streak of consecutively broken annual record low tallies. Juvenile Index Crime arrests ranged from 4,000 to 7,000 annually during the 1975-1997 period and thereafter plummeted in each subsequent year until 2004. The 2004 figure marks a 46.9% decrease over the previous 10-year period.

\* Including the violent Index Crimes of murder, forcible rape, aggravated assault, and robbery; the property Index Crimes of burglary, motor vehicle theft, and larceny-theft; and, tracked separately, arson.

- The City & County of Honolulu's Index Crime rate decreased 8.5% in 2004, with the violent crime rate falling 3.9% and the property crime rate down 8.8%.
- Hawaii County's Index Crime rate decreased 14.3% in 2004. The violent crime rate decreased 3.4% and the property crime fell 14.8%. Hawaii County's total Index, violent, and property crime rates in 2004 were the lowest in the State of Hawaii.
- The Index Crime rate in Maui County decreased 1.3% in 2004, with the violent crime rate falling 14.0% and the property crime rate down 0.8%. Maui County's total Index and property crime rates in 2004 were the highest in the State of Hawaii.
- The Index Crime rate in Kauai County decreased 11.9% in 2004, with the violent crime rate up 9.8% and the property crime rate down 13.3%. Kauai County's violent crime rate in 2004 was the highest in the State of Hawaii.
- Thirty-three murders were reported statewide in 2004, up from a record low of 22 reported in 2003. Females comprised 24.2% of the murder victims and 14.8% of the alleged offenders in 2004. The breakdown for the relationship between victims and offenders in 2004 includes: acquaintance, 36.4% (12); stranger, 27.3% (9); unknown relationship, 18.2% (6); immediate family, 12.1% (4); and girlfriend/boyfriend, 6.1% (2).
- Of the 2,913 murders, robberies, and aggravated assaults reported statewide during 2004, 41.8% were committed using strongarm weapons (i.e., hands, fists, and feet), 28.1% with "other" or unknown weapons, 19.5% with edged weapons, and 10.5% with firearms.
- Over \$65 million in property value was reported stolen in Hawaii during 2004, up 9.2% from the figure reported for 2003. Of the total value stolen in 2004, 17.3% was recovered, down slightly from 17.5% recovered in 2003.
- In 2004, 356 assaults on Hawaii's police officers were recorded (a rate of 13.1 assaults per 100 officers). *Crime in Hawaii 2004* also provides data on the time of day, type of assignment, and the weapons used in assaults against police officers.
- On October 31, 2004, a total of 2,712 police officers and 715 civilians were employed by the four county police departments, denoting a 3.7% decrease in officers and a 5.5% decrease in civilians from the figures reported for October 31, 2003.

The table on the following page provides comparative state and county crime rate data by offense, offense category, and percent change from 2003.

# THE UNIFORM CRIME REPORTING PROGRAM

## BACKGROUND

The Uniform Crime Reporting (UCR) Program was initiated in 1930 by the International Association of Chiefs of Police (IACP) to meet a recognized need for a nationwide system to collect crime statistics. Since there are numerous differences in criminal codes throughout the United States, the UCR program uses a standard definition for each offense. Law enforcement agencies submit data in accordance to these definitions rather than state statutes. This standardization allows for inter-jurisdictional comparisons and internal validity of national totals.

The national UCR program is administered by the Federal Bureau of Investigation (FBI). Definitions of specific offenses, as well as reporting criteria, are contained in the FBI's *Uniform Crime Reporting Handbook*. The FBI provides report forms and training to city, county, and state law enforcement agencies. Crime data are collected by over 16,000 local enforcement agencies and reported to the FBI. The FBI assembles, publishes, and distributes a comprehensive annual publication entitled *Crime in the United States*, as well as periodic special reports.

In an effort to streamline procedures and provide consistency and comparability of data, the FBI promoted the development of state UCR programs. The purpose of the state-level UCR program is to collect data from local law enforcement agencies and assure compliance with standards developed jointly by the FBI and IACP.

Hawaii's UCR program was housed in the Judiciary from its inception in 1975 until 1981, when it was transferred to the Hawaii Criminal Justice Data Center, a Division of the Department of the Attorney General. In 1991, the program was transferred from the Data Center to the Research and Statistics Branch of the Crime Prevention Division, which in 1995 became the Crime Prevention and Justice Assistance Division.

The Research and Statistics Branch collects and reviews the UCR reports received from the four county police departments before mailing the reports to the FBI. The Branch is also responsible for providing technical assistance to the contributing agencies, as well as serving as the FBI's single point of contact in the State of Hawaii.

## CRIME STATISTICS

Consistent with the UCR objectives of providing the best representation of total crime and providing the most meaningful data to police departments, the UCR program collects data on reported offenses and arrests. It is widely understood that offenses known to police are an under-representation of the total number of crimes committed, and that a truly reliable measure of unreported crimes is difficult, if not impossible, to obtain. However, the use of reported offenses as official statistics can be verified and compared over time and between jurisdictions.

Because of their seriousness and frequency of occurrence, seven offenses were initially chosen by the IACP to comprise a Crime Index and serve as indicators of our nation's crime experience: murder and nonnegligent manslaughter; forcible rape; robbery; aggravated

assault; burglary; larceny-theft; and motor vehicle theft. In 1979, a congressional mandate added arson as the eighth Crime Index Offense.<sup>1</sup>

Information reported for Index Offenses includes: the number of crimes reported; the number of offenses cleared by arrest or by exceptional means<sup>2</sup>; the number of arrests, and the value of property destroyed by arson and taken in each of the remaining offenses, except aggravated assault. (By definition, property cannot be taken in an assault. An offense that begins as an assault but ends with property being taken is classified as robbery.) The eight Index Crimes plus the crime of negligent manslaughter are referred to as Part I Offenses. While complete information is collected on nontraffic-related negligent manslaughters, this offense is rare and not mentioned in *Crime in the United States*. Part II Offenses include all other offenses, except traffic, not included in Part I. The national UCR program collects and reports only arrest data for Part II Offenses, while *Crime in Hawaii* additionally contains reported Part II Offense statistics.<sup>3</sup> Total negligent manslaughter arrests, including traffic-related, are included in *Crime in Hawaii* with the Part II arrests.

Definitions of terms used in this report appear in Appendices A and B. More detailed descriptions of the UCR program can be obtained from the *Uniform Crime Reporting Handbook* published by the FBI. Trends in law enforcement officers killed and assaulted (LEOKA) are reported in Appendix C.

UCR program rules for classifying and counting crimes are somewhat complex and can, at times, even appear contradictory. Prior to delving into the pages that follow, first-time readers of *Crime in Hawaii* are encouraged to read the “Caveats” page. All readers are requested to review this page when attempting to answer questions about how crimes and arrests are counted and to contact us if their questions remain unanswered. Contact information is at the bottom of the “Caveats” page.

<sup>1</sup> Hawaii has collected arson offense data since 1980. Nationally, a number of jurisdictions do not report arson offenses to the FBI. Also, the Hierarchy Rule does not apply to arson offenses. This means that all arsons which become known to the police are counted, so that crime incidents which include arson and one or more of the other Index Offenses are counted twice. As a result, the FBI does not include arsons in calculating and reporting total Index Crimes or property crimes and their respective crime rates. In order to remain consistent with federal reporting, Hawaii also does not include arsons in total Index Crimes and property crimes. Arson offenses are also not counted in the grand total of Index & Part II Offenses.

<sup>2</sup> An offense cleared by exceptional means is one in which the offender and his or her exact location are known to the law enforcement agency but, for reasons beyond the control of the agency, the offender cannot be arrested. See Appendix A for definition and examples.

<sup>3</sup>See Appendix B for definitions of Part II Offenses.

The nature of crime in Hawaii is different from that of the United States in general. Nationally in 2004, violent crimes accounted for 11.7% of the Crime Index while only 5.1% of the Crime Index in Hawaii was comprised of violent crimes.

The number of reported Index Crimes in Hawaii decreased 8.1% from 2003 to 2004. Of the eight reported Index Crimes, three showed an increase in the number of reported offenses from 2003 to 2004: murder, 50.0%; aggravated assault, 4.0%; and arson, 3.9%. Other offenses decreased from 2003 to 2004: forcible rape, 1.6%; robbery, 17.6%; burglary, 6.0%; larceny-theft, 8.4%; and motor vehicle theft, 10.6%. The number of reported Part II Offenses decreased 1.9%, lowering the grand total of Index and Part II Offenses by 4.2% from 2003 to 2004. The rate of reported Index Offenses per 100,000 resident population decreased by 8.5% in 2004 from the rate reported for 2003.

The table on the next page lists the actual numbers of reported offenses, excluding traffic, in the State of Hawaii during the past 10 years. The population of the State of Hawaii increased 7.0% during this period, while the number of reported Index Offenses declined 25.5%. Four of the eight Index Crime categories—forcible rape, aggravated assault, motor vehicle theft, and arson—showed higher offense totals in 2004 than in 1995, while the number of reported offenses was lower in the other four categories.

## ARREST STATISTICS

Arrest data, including the age, sex, and race/ethnicity of the arrestees, are reported by county law enforcement agencies for all violations except most traffic offenses<sup>1</sup>. The UCR Program requires that an arrest be counted on each separate occasion a person is taken into custody, notified, or cited. As such, arrest figures do not measure the number of individual people arrested since one person may be arrested several times during the year, for the same or different types of offenses.

Only the most serious violation is recorded for each arrest. The violations are divided into two categories: Index Offenses, including murder, forcible rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft, and arson; and Part II Offenses, comprised of all other offenses, including manslaughter by negligence<sup>2</sup>. Definitions of Index Offenses and Part II Offenses are included in Appendices A and B, respectively.

Race and ethnicity data are presented using categories relevant to Hawaii: White, Black, American Indian or Alaskan Native, Chinese, Japanese, Filipino, Hawaiian/Part-Hawaiian, Korean, Samoan, and Other Asian or Pacific Islander. Categories typically employed by the FBI and elsewhere in the nation are more restrictive: White, Black, American Indian or Alaskan Native, and Asian or Pacific Islander.

There were a number of new tables introduced in *Crime in Hawaii, 1996*. Primary among these are historical counts of adult and juvenile arrests for the Part II Offense categories. The juvenile status offenses of curfew/loitering and runaway are traditionally included in Part II. In addition, the status offenses of truancy and ungovernability are included in the Part II arrest category of "All Other Offenses" for juveniles. The role that these status offenses play in any examination of juvenile arrest trends should be seriously considered. For example, in 2004, there were 4,253 arrests statewide for the specified status offenses, accounting for 47.6% of juvenile arrests for Part II Offenses, and 38.3% of all juvenile arrests. Thus, status offense arrests weigh heavily into the calculation of juvenile arrest totals and trends, and any adult-to-juvenile comparison based on traditional Part II totals will be biased in favor of adults.

---

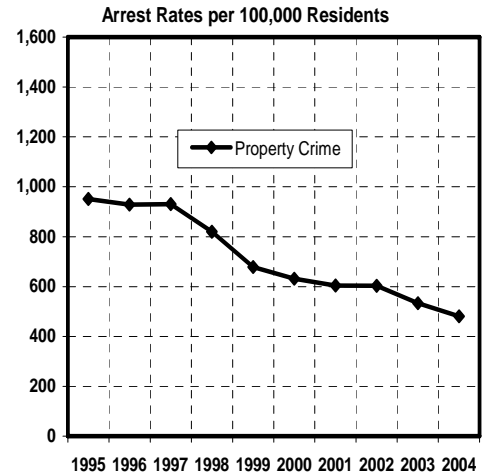

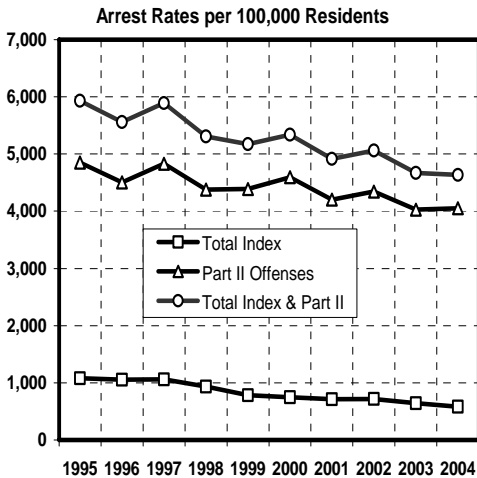

<sup>1</sup> Contrary to the UCR rule in which reported offenses of negligent manslaughter are tallied for non-traffic cases only, arrest totals for this offense include both traffic and non-traffic cases.

<sup>2</sup> The division of crime categories is sometimes still made between Part I, an older term that encompassed Index Offenses plus manslaughter by negligence, and Part II, which includes all other offenses. The sections herein on reported offenses (pages 7-99) and arrests (pages 101-162) include manslaughter by negligence with the Part II Offenses for two reasons: 1) the current emphasis of the UCR Program, and this report, is on Index Offenses (which exclude manslaughter by negligence) rather than Part I Offenses; and 2) the FBI's national report, *Crime in the United States*, groups arrest data by Index Offenses and all other offenses — arrests for manslaughter by negligence are excluded.

## APPENDIX A

### DEFINITIONS

**AGGRAVATED ASSAULT:** An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury; attempted murder. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm. It is not necessary that injury result from an aggravated assault when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime were successfully completed. Attacks by personal weapons, such as hands, fists, feet, etc., which result in serious or aggravated injury.

**ARSON:** Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc.

**ASSAULT:** An unlawful attack by one person upon another. Includes Aggravated Assault (Part I Offense) and Other Assaults (Part II Offense).

**BURGLARY:** The unlawful entry of a structure to commit a felony or a theft. Includes forcible entry, unlawful entry where no force is used, and attempted forcible entry where no entry occurs.

**CLEARANCE:** An offense is "cleared" either by arrest or exceptional means. An offense is cleared by arrest when at least one person is arrested; charged with the commission of the offense; and turned over to the court for prosecution. An offense is cleared by exceptional means when the identity of the offender is known; there is enough evidence to support an arrest, charge, and turning over to the court for prosecution; the exact location of the offender is known; and, for reasons outside the control of law enforcement, the offender cannot be arrested, charged, and prosecuted. Examples of offenses cleared by exceptional means include suicide of the offender, double murder, deathbed confession, and denied extradition. It should be noted that the number of offenses and not the number of persons arrested is used to count clearances. Several offenses may be cleared by the arrest of one person; or the arrest of several people may clear only one offense.

**CRIME INDEX:** The eight Part I Offenses reported in the Uniform Crime Reporting Program to represent the status of crime in the United States: murder and nonnegligent manslaughter (the latter term is not used in Hawaii), forcible rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft, and arson.

**CRIME RATE:** The number of crimes per 100,000 population (usually the resident population) is obtained using the following equation:

$$Crime\ Rate = \left( \frac{Number\ of\ Crimes}{Resident\ Population} \right) \times 100,000$$

More accurate crime rates (e.g., the number of rapes per 100,000 females or the number of motor vehicle thefts per 100,000 vehicles) are not reported in *Crime in the U.S.* and, therefore, are not used in *Crime in Hawaii*.

**CRIMINAL HOMICIDE:** The willful (nonnegligent) killing of one human being by another or the killing of another person through gross negligence. Includes Murder and Nonnegligent Manslaughter (the latter term is not used in Hawaii), and Manslaughter by Negligence.

**DE FACTO POPULATION:** The number of persons physically present in an area, regardless of military status or usual place of residence. Includes visitors present and excludes residents temporarily absent.

**LARCENY-THEFT:** The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. Includes pocket-picking, purse-snatching, shoplifting, theft from motor vehicles, theft of motor vehicle parts and accessories, theft of bicycles, etc. Does not include embezzlement, forgery, or motor vehicle theft.

**MOTOR VEHICLE THEFT:** The theft or attempted theft of a motor vehicle, including automobiles, trucks, buses, motorcycles, motor scooters, snowmobiles, etc.

**MURDER:** The willful (nonnegligent) killing of one human being by another.

**NONVIOLENT OFFENSES:** Include the offense categories of larceny-theft, burglary, and auto theft. Often referred to as Property Offenses (excluding robbery).

**PART I OFFENSES:** Offenses which make up the Crime Index: murder, forcible rape, robbery, aggravated assault, burglary, larceny-theft, motor vehicle theft, and arson; plus the offense of manslaughter by negligence.

**PART II OFFENSES:** All criminal offenses not classified as Part I Offenses. Also included are the juvenile status offenses of curfew/loitering violation and runaway. See Appendix B for specific Part II Offense definitions.

**PROPERTY OFFENSES:** Include larceny-theft, burglary, auto theft, and arson. Robbery is classified as a violent crime due to the use or threat of force.

**RESIDENT POPULATION:** The number of persons whose usual place of residence is in an area, regardless of physical location on the estimated census date. Includes military personnel stationed or homeported in the area and excludes persons of local origin attending school or in military service outside the area.

**ROBBERY:** The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim(s) in fear. While robbery has the attributes of a property crime, it is grouped with violent crimes due to the additional attribute of force or the threat of force.

## APPENDIX D

### POPULATION ESTIMATES

State and county resident population estimates for *Crime in Hawaii 2004* are from the U.S. Census Bureau.

The United States census of population is taken as of April 1 in each year ending in zero. Intercensal population estimates are made as of July 1 in each non-census year. Estimates based on the just-completed census are also made for July 1 of census years. While the FBI continues to use exact census populations to calculate crime rates in census years, *Crime in Hawaii 2004*, used July 1 estimated populations to determine crime rates for all years. In so doing, a regular progression of estimates taken at 12-month intervals is available to more accurately reflect crime rate trends.
