FIRST DEPUTY ATTORNEY GENERAL

**RE: Update from FDA regarding additional authorized tobacco products**

Dear Tobacco Licensee:

The purpose of this letter is to inform State of Hawaii tobacco retailers and licensees of a recent announcement by the U.S. Food and Drug Administration (“FDA”).

**On March 12, 2026, the FDA authorized the of marketing of additional e-cigarettes to be sold in the United States.** The products for which the FDA issued marketing granted orders are the following:

- Glas G<sup>2</sup> DEVICE
- BLONDE TOBACCO 50 MG/ML Pod

The two new authorized e-cigarette products are made by Glas Inc.; however, the authorizations are specific to these two products only, and do not apply to any other Glas Inc. products.

The FDA states: “While these products are authorized to be sold in the United States, it does not mean these products are safe, nor are they ‘FDA approved.’ All tobacco products are harmful and potentially addictive. Those who do not use tobacco products shouldn’t start.”

To date, only 41 e-cigarettes and 26 nicotine pouches have been authorized by the FDA to be sold in the United States. Enclosed is the updated flyer of “E-Cigarettes Authorized by the FDA.”

You may also access an up-to-date, searchable FDA database for authorized products at the following website: <https://www.accessdata.fda.gov/scripts/searchtobacco/>. The Department asks that you remove from your shelves any products not authorized for sale and return them to their distributor or manufacturer, keeping in mind that these products may be considered hazardous materials.
