APPENDICES

APPENDIX A

Listerine / Shampoo Uno (Wawein kōmadmōd eo ejelok baijin ie)

There are many treatments you can use for ukus. Here is a sample of a non-toxic treatment you can use. Whatever treatment is used, you need to clean your environment and at the same time, continually check for nits until they are gone.

Use original Listerine

(brown or orange bottle). **DO NOT USE FLAVORED LISTERINE.**

Mix equal portions of Listerine and shampoo.

Shake well.

Apply to dry hair. **DO NOT GET INTO EYES.** Leave on for 10 minutes.

Rinse off, apply conditioner, and rinse again. Comb hair out

and remove dead lice.

Remove the nits or eggs. **DO NOT SHARE COMBS OR TOWELS WITH ANYONE.**

Use this every three days for twelve days, and it will continually kill the live ukus as they are hatching.
