Due to the ever-changing nature of the law, the public should seek timely legal advice from counsel, based on current law.

June 2008

INTRODUCTION

Hawaii is made up of a multitude of ethnic groups, all of whom have brought with them their own cultural diversity. Upon their arrival, they are embraced by the spirit of Aloha – a sense of welcome and understanding.

In many Pacific Island cultures, the canoe is a symbol of strength, courage, teamwork, and perseverance. Like a canoe, newcomers must be ready for change and must be able to adjust to their surroundings by working together to overcome challenges. All cultures, all nations, and all people have one common value – respect for others. We are in the same canoe and through "laulima" (many hands working together), we can find success in a new land.

A recent addition to Hawaii has been newcomers from the Federated States of Micronesia (Chuuk, Pohnpei, Kosrae, and Yap), the Republic of the Marshall Islands, and the Republic of Palau, also known as the Freely Associated States (FAS). As with other ethnic group newcomers, many are faced with exciting and challenging adjustments in their new home.

The intent of this handbook is to provide an acculturation tool for those from the Freely Associated States. This handbook includes:

- · The important role of the family in the home and at school;
- · Caring for children;
- · Child safety in the home and in the community;
- · Hawaii laws; and
- Low- or no-cost resources.

As we journey together, and meet life's many challenges in our canoe, it is our hope that we will succeed in reaching our dreams not only from looking to the stars like our ancestors taughty us - but from working harmoniously together, for better horizons ahead.

We hope this handbook will provide the information needed to successfully adapt to Hawaii.

Voyaging Together to a New Life: A Handbook for Newcomers to Hawaii is the result of a partnership between:

- Department of the Attorney General, Crime Prevention and Justice Assistance Division;
- Department of Labor and Industrial Relations, Office of Community Services;
- · Department of Health;
- Department of the Prosecuting Attorney, City and County of Honolulu;
- · Goodwill Industries of Hawaii, Inc.; and
- · Parents and Children Together, Hawaii Parental Information and Resource Center.

THE IMPORTANT ROLE OF THE FAMILY IN THE HOME AND AT SCHOOL

Families are encouraged to be involved in their children's education. Mothers and fathers, grandparents, aunties and uncles, older brothers and sisters all play an important role in education.

SLEEPING AND WAKING

Younger children usually need more sleep than teenagers. In general:

- Children under age 5 need 10-12 hours of sleep a night.
- School age children need 9-10 hours of sleep a night.
- Teens need 8-9 hours of sleep each night.

The night before school, some parents and children find it helpful to lay out their clothes and get their school bags ready for the next day.

SCHOOLS

All children, including those with disabilities and those that are homeless, are required by law to attend school. It is against the law for children to miss school for no reason. Every neighborhood has a public school.

Enroll children in school as soon as possible. Enrollment requirements include:

- · Birth Certificate
- Proof of Address
- Proof of immunization, tuberculosis clearance, and school physical exam (Student Health Record Form 14) See Resources in Hawaii section for health clinics in your area.
- Legal Documents such as guardianship papers, temporary restraining orders (TROs), custody papers, divorce decrees, etc.

SCHOOLS (Continued)

Talk to your child's teacher about how your child is doing in school. Parents meet with teachers a few times each school year. Remember, it's okay to speak up for your child if he or she needs help.

If you need help communicating with your child's teacher, you can ask for an interpreter. An interpreter is someone who speaks your native language and English. You have the right to ask schools to provide an interpreter. If possible, do not use children as an interpreter.

UKUS OR HEAD LICE PREVENTION

If children have ukus or head lice, they will not be allowed to attend school.

Ukus or head lice are caused by a bug which lives on your head by sucking your blood. They lay eggs which stick onto your hair.

To treat ukus or head lice, use Nix, Rid or coconut oil or the Listerine/ Shampoo combination (see Appendix A). DO NOT USE BUG SPRAY LIKE RAID OR KEROSENE ON A CHILD'S HEAD. Eggs need to be combed out on a daily basis.

Cleaning and washing of all items, including your hair, will keep the ukus or head lice from your home.

It is important to clean the house and at the same time, wash all sheets, towels, and combs. Vacuum all areas in the house, including chairs.

Items that cannot be washed, such as pillows and stuffed animals, should be placed in a dryer on HIGH heat for at least 20 minutes. Items that cannot be put in a dryer, washed, or hung outside in the sun, should be placed in bags for 3 to 4 days.

BE PREPARED TO LEARN

Preparation for a child's learning in school begins in the home. Children who have daily chores, are taught right from wrong, eat family meals together, and are shown good attention are happier and better able to learn in school.

Parents are expected to provide all school supplies for their children. Talk to your child's teacher to find out what school

supplies are needed.
(See Resources in Hawaii section for free school supplies.) Your child should bring all their school supplies with them on the first day of school.

If your child is sick or cannot attend school for any reason, contact the school. If your child is late, a parent or guardian must go to the school office with the child and get a tardy pass. If your child does not attend school, this is considered being truant and is illegal.

All children must wear slippers or shoes. This will help protect their feet from cuts or diseases.

AFTER SCHOOL PROGRAMS

In many communities, there are after school programs that can help your children succeed in school. Some are free and some you must pay for.

All public elementary schools have the A+ Program where your children can stay after school while you are working. Costs depend on your family's income.

Other programs include tutoring and athletics. Ask your school if you are interested in any of these after school programs.

WHEN CHILDREN RETURN HOME FROM SCHOOL

Parents can support their children's learning by:

- Promoting good study habits at home set aside a place for children to do their homework.
- · Making sure homework is completed and ready to bring to school the next day.
- · Checking daily for notes sent home from school.
- · Talking with children about their school day.
- Setting limits on TV, video games, and computer games.
- Encouraging children to read. Books can be borrowed for free from the public library.
- Getting to know your children's friends. This prevents children from getting into risky behaviors such as lying, stealing, joining a gang, using alcohol or drugs, etc.

SHARING HOUSEHOLD DUTIES

Teaching household duties to children at a young age helps them to learn how to work with others and how to be responsible. These are important life skills that will help your children succeed in school. Each member in the family (grandparents, parents, and children) can share in household duties such as setting the table, cleaning up after meals, washing dishes, taking out the trash, doing the laundry, and cleaning the house and yard.

BEDTIME

Children do best with a regular schedule.

Following a routine of what happens before going to bed each night – brushing teeth, putting on sleep clothes, adults reading or telling a story, and going to sleep at the same time every night will help your child know what to expect and do each night.

This is a good time to share good memories, stories, or songs from your culture with your child.

CARING FOR YOUR CHILD

It is important to provide children with healthy food, a loving home, a supportive family as well as clear and firm discipline. Having the right balance of healthy food, positive living habits, and discipline will provide children with a strong foundation that is important to becoming a good person.

HOUSING

Most landlords have rental agreements, which are legal documents between you and the landlord.

Here are some housing tips:

- · Rent must be paid on time.
- Always submit a request to the landlord if there will be additional people staying or living with you.
- If there are questions about what you can or cannot do, always ask the landlord about the housing rules and policies. (For public housing, this is very important because if you are evicted, you are no longer eligible for public housing anywhere in Hawaii.)
- · Keep copies of all important documents (rental agreement and receipts).

At least two months rent is needed to get a place to live. This normally includes a deposit and

the first month's rent. The deposit is usually returned when you leave, as long as there is no damage to the house or apartment.

- · Report any repair requests to the landlord.
- Keep the apartment and appliances clean. This will prevent you from incurring additional costs when moving out.
- Keep your home and yard clean (mow the lawn, rake leaves); remove bulky trash items (mattresses, old furniture), old vehicles, and other items that pile up (cans, newspaper) on your property. (see Resources in Hawaii section, bulky items pick-up)
- Each county has its own rules about home trash pick-up. Check with your neighbors to find out when trash pick-up occurs.
- There are recycling (returning cans and bottle for money) centers around the state.

MEALS, NUTRITION, AND EXERCISE

Healthy meals and exercise will help children from becoming overweight, and developing diabetes, heart disease, or cancer.

Here are some ways to keep healthy:

- Drink water. Water in Hawaii is safe to drink. Drinking too much soda and sweet juices will make children overweight.
- Exercise every day by walking, swimming, playing sports, dancing, etc.
- Add vegetables and fruits to at least one meal per day.

19

CHILD SUPERVISION

To keep children safe, adults need to watch their young children at all times. Parents are expected to know what their children are doing. Children SHOULD NOT watch other children. Here are some guidelines:

- Do not leave children under 7 years old alone.
- Do not leave children 8-10 years old alone for more than 90 minutes during the day or early evening. They should not be expected to watch babies or younger children.
- Children 11-12 years old may be left alone for up to 3 hours, but not late at night. They should not be expected to watch babies or younger children without an adult nearby.
- Teenagers 13-15 years old may be left alone, but not overnight.
- Teenagers 16-17 years old may be left alone and if necessary up to 2 nights.

Children and teenagers should always know how to contact their parents or another responsible adult.

Children and teenagers should know to call 9-1-1 in case of emergency.

SHOWING CHILDREN ATTENTION

Children are happy when parents spend time with them. Spending time together and doing activities with children is another way to show that you care and love them. This includes taking the time to talk and listen to each other and have fun together.

Here are some examples of what parents can do with their children:

- · Go to the beach together.
- · Sing songs with one another.
- Play a ukulele with one another.
- Play volleyball, basketball, baseball, soccer, etc. with one another.
- · Read together.
- Play games with one another.

DISCIPLINE

Harsh physical discipline, such as slapping, hitting, beating, punching, or shaking which could injure a child, is illegal in Hawaii.

Since any physical discipline can easily become too harsh, and because children learn better from other methods of discipline, many parents do not use physical discipline.

"Time Out" is one safe method you can use. To learn about time out or other methods, talk to a teacher, a school counselor, or a health care professional. (See Resources in Hawaii section for information on parenting assistance.)

SUPPORTING GOOD BEHAVIORS

Children 6-12 years old can be disciplined with rewards and consequences. Good behaviors are rewarded. Rewards can include spending time with friends, going to the movies, or special treats. Bad behaviors result in consequences, which can be the taking away of a priviledge, such as talking on the phone or watching television. To be effective, children must understand what the consequences of bad behaviors will be.

Teenagers can earn privileges when they follow a parent's rules or lose privileges when they disobey the rules. To be effective, parents must be consistent about rules and follow through.

HYGIENE

Good personal hygiene is important for good health. Bathing and brushing teeth daily, wearing clean clothes, keeping hands and fingernails clean, and wearing slippers or shoes help

prevent colds and the spreading of germs to others. Spitting in public is another way germs can be passed to other people and should not be done.

Here are some tips:

- Wash hands, bathe body, and shampoo hair daily.
- Each person has his or her own toothbrush.
 Brush teeth after every meal and before going to bed.
- Turn away from people and cover nose and mouth when sneezing.
- Use a tissue when coughing and blowing or cleaning your nose. Throw used tissue in a trash can. Do not use clothes to wipe runny noses.
- Wash hands frequently with soap and water, especially after blowing your nose or sneezing.

KEEPING SAFE IN THE HOME AND COMMUNITY

There are laws and ways to behave to keep people safe. These also help keep everyone in the family from being hurt or from hurting others.

CAR SAFETY

Children should never be left alone in a car, not even to make a quick errand into a store or a friend's house. Infants and children have been kidnapped when left alone in cars. Infants and small children can get very sick if left in a hot car for a short time.

Adults should not leave their car keys in the ignition (keep the car's engine running) when leaving the car.

Drinking beer or alcohol or being under the influence of drugs while driving is against the law. Most fatal car crashes are the result of driving under the influence of alcohol or drugs.

DRIVER'S LICENSE

A valid driver's license is required to drive a moving vehicle (car, truck, van, etc.). Drivers must take a test to get a driver's license. For more information on how to get a driver's license, contact your local Department of Motor Vehicles. (See Resources in Hawaii section, driver's license.)

SEAT BELTS AND CAR SEATS

Hawaii law requires the use of a seat belt when driving or riding in a car.

Children under 4 years old must be securely fastened in a child safety seat.

Children between 4 years old and 7 years old must be in a booster seat.

Children taller than 4'9" must wear a seat belt.

The driver and passenger in the front seat must wear a seat belt.

Children 12 years old and younger cannot ride in the back of a pick-up truck. For more information, call Keiki Injury Prevention Coalition (KIPC) at 537-9200.

STREET SAFETY

Walk on the sidewalk at all times.

Teach children how to cross the street safely by using the crosswalk. Stop, listen, and look both ways (left and right) before stepping out to cross the street. Never run out from the curb into the crosswalk without first stopping and looking both ways.

At intersections with traffic lights, teach children the meaning of the signals.

WALKING MAN means OKAY TO WALK

HAND means DO NOT WALK

HOME SAFETY

Teach children what is an emergency and how to call 9-1-1.

Place all dangerous items such as cleaning products, matches, bleach, etc. where children cannot reach them. Dangerous products usually have a poisonous symbol on the label. To keep younger children safe, it is important to put child guard locks on cabinets or place poisonous items on high shelves where children cannot reach them.

If you think your child has swallowed a poison, contact the Hawaii Poison Center at (808) 941-4411 or the American Association of Poison Control Centers at 1-800-222-1222.

Keep matches, butane lighters, candles, flammable liquids out of reach of children.

CRIME PREVENTION

Teach children not to take candy or presents from people they don't know.

Teach children about the dangers of drugs, beer, alcohol, and smoking. In Hawaii, it is illegal for a child to possess street drugs, alcohol, or cigarettes. (See Hawaii Laws section.)

Teach children to respect public areas. Vandalism (damaging public property) and graffiti (spray painting on public signs, writing on walls, etc.) are against the law.

Parents are legally responsible for the actions of their children under 18 years old.

BULLIES

Question: What is a bully?

Answer: Someone who is mean, hitting, fighting, bossy, makes you do things you don't want to do,

talks bad about you, etc. Sometimes a bully is part of a gang.

What to Do if Your Child is Being Bullied?

- Talk to your child if you think he or she is being bullied at school.
- · Don't blame the child who is being bullied.
- Teach your child how to walk away from the bully or gang and ask an adult for help.
- Talk to the school principal, teacher, or counselor if your child is being bullied.
- Do not encourage physical retaliation ("just hit them back") as a solution.

BULLIES (Continued)

Children who bully their peers tend to be more hot-headed, easily frustrated, have difficulty following rules, lack feeling for what other people feel (empathy), and view violence in a positive way.

If your child is bullying others:

- Make it clear to your child that this behavior will not be tolerated.
- Develop clear and consistent rules within your family praise the child for non-physical, non-hostile actions.
- Spend more time with your child and monitor his or her activities and friends.
- Build on your child's talents and encourage him or her to get involved in pro-social activities (such as clubs, music, non-violent sports, etc.).
- Share your concerns with your child's teacher, counselor, and/or principal. Work together with them.

SEX ASSAULT PREVENTION

Sex assault is a concern for many parents.

Here are some things children can be taught:

- No one has the right to touch them in a way that makes them feel uncomfortable. Their body belongs to them.
- They have the right to say "no" to any type of touch they don't like.
- If someone touches them in a way that makes them feel uncomfortable, they should tell a trusted adult and keep telling until someone helps them.
- It is okay to ask questions about safe and unsafe touches.
- If unsafe touching should happen, it is NEVER their fault.

KEEPING HEALTHY

Everyone is encouraged to stay as healthy as possible by exercising, eating a well balanced and healthy diet, and getting enough sleep.

Staying healthy also means taking responsibility for your own health and the health of your children. If you have a medical condition, make sure you take the medicine the doctor prescribes.

Get medical attention before you are seriously ill. Take action as soon as you think something is wrong. Waiting until you are so sick that you end up in the emergency room is not taking care of your body.

Hawaii cares for its children and families who cannot afford health insurance. Free, or low-cost, health insurance through Hawaii QUEST is available to income eligible families.

HAWAII QUEST

Hawaii QUEST, commonly known as QUEST, provides medical and mental health services for eligible Hawaii residents. Dental services are provided under the Medicaid Fee-For-Service Program. QUEST is administered by the Department of Human Services, Med-QUEST Division, and is financed through the State of Hawaii and the Federal Centers for Medicare and Medicaid Services.

If you are eligible for Hawaii QUEST, you can choose one medical plan and one dental plan to serve you and your family members. All family members must enroll in the same medical and dental plan.

Some medical plans have a limit on the number of members they can accept. If the plan you want is already full, you will have to choose a different plan. If you do not make a choice, you will be assigned to a medical and dental plan.

Six medical plans are participating: AlohaCare, HMSA, Kaiser Permanente, Kapiolani HealthHawaii, Queen's Hawaii, and StraubCare Quantum. All six plans participate on Oahu, with at least two plans on each Neighbor Island.

Three dental plans, AlohaCare, DentiCare, and HMSA, are available statewide.

GOING TO THE DOCTOR AND DENTIST

Everyone in the family should have regular medical and dental check ups. (See Resources in Hawaii section for a list of clinics.) Most health insurance plans cover well-care and sick-care.

To make an appointment:

- Contact the insurance plan office for a list of doctors who will accept your insurance.
- Select a doctor from the list. If a doctor is not chosen, MedQuest will choose one for you.
- Before making an appointment for a regular check-up, make sure you have received the insurance card. Call the doctor listed on the insurance card.
- Be on time for all appointments. If a medical or dental appointment cannot be kept, call the doctor's office as soon as possible to schedule another appointment.

If you or your child is sick, call your doctor. Know his or her office and emergency numbers.

COMMUNICABLE DISEASES

Communicable diseases can be prevented and treated.

Children should receive the necessary immunizations to protect them from preventable childhood diseases such as mumps, measles, and chicken pox. Families should visit their doctors, or if they have no health insurance, they can go to a free or low-cost health clinic.

Turberculosis (TB) clearance is required for school enrollment and admission to shelters. A TB clearance may also be required for employment. All new immigrants should be tested.

There are other diseases that are easily detected and treated. Free screening is available for Sexually Transmitted Diseases and Hansen's Disease.

See Resources in Hawaii section for a list of health clinics that provide services on Immunizations, TB screening, sexually transmitted diseases, and Hansen's Disease.

CHILD WELFARE SERVICES (formerly Child Protective Services)

If a family is reported for possible child abuse or neglect, the family may be visited at home by a police officer or by a social worker from Child Welfare Services (CWS).

There are four types of harm to children:

- 1) <u>Physical abuse</u>: Injuring a child from actions such as beating, kicking, biting, burning, shaking or other ways of physically harming a child.
- 2) <u>Child neglect</u>: Abandoning, or not supervising a child; not meeting a child's physical, educational, or medical needs.
- 3) <u>Sexual abuse</u>: Any sexual activity between an adult and a child (under 16 years old).
- 4) Emotional abuse: Frequent screaming, name calling, or rejection of the child.

Most families are never reported for child abuse or neglect. However, families that are visited by CWS should carefully review and keep all paperwork. If there is any question or concern about understanding the social worker, the family should request that the social worker bring an interpreter or cultural liaison to help with communication and understanding. Children should never be used as interpreters. Do not sign any paperwork unless you understand what it says. It is important to remain calm and cooperative.

In many cases, there will be an ohana (family) conference where family members and supportive people are brought together to discuss the situation and come up with a plan to ensure that the children are safe and the family receives needed services. This plan may include placement of the child outside of the parents' home with other family members or friends.

Child Welfare Services (Continued)

If CWS believes it is not safe for the children to remain in the home, the children will be placed with a relative, with a foster family, or in an emergency shelter. If this happens, the parents should contact an elder or community leader and a lawyer to make sure that both the family and CWS have enough information. There may be a court hearing where a judge decides whether it is safe for the children to return home. CWS will work with the family to make the home safe for the children's return.

CWS will help the family learn how to resolve conflicts and use effective discipline methods with their children. They may help the family get needed services in the home or at an agency.

If more information is needed, ask for a copy of the "Guide to Child Welfare Services" from any CWS office or worker.

HAWAII LAWS

Here are some laws that everyone must obey. If someone is violating the law, contact the police and help them to keep our community safe and crime free.

DO NOT LITTER

Caring for the land is important so we can continue to live in a beautiful state that has clean beaches, clean parks, and clean neighborhoods. Leaving rubbish (paper, plastic, bottles, cans, spitting tobacco, cigarettes, etc.) in public places is called "littering." A person can be fined by the police for littering. Place all rubbish in trash cans.

DO NOT DRINK ALCOHOL IN PUBLIC

A person can be arrested by the police and incarcerated (put in jail) for drinking alcohol (beer or liquor) in public (outside of your home, in the park, at the beach, on the street, in your vehicle).

PERSONS UNDER AGE 21 CANNOT DRINK ALCOHOL (UNDERAGE DRINKING)

A person under the age of 21 can be arrested by the police and incarcerated (put in jail) for drinking or possessing alcohol (beer or liquor). A person who buys alcohol for or gives alcohol to a person under the age of 21 can be arrested by the police and incarcerated.

DO NOT POSSESS DANGEROUS WEAPONS IN PUBLIC

A person can be arrested by police and incarcerated (put in jail) for the possession of a dangerous weapon, including knives and guns, in public or in a vehicle (car, truck, or van).

DO NOT POSSESS, USE, OR SELL ILLEGAL DRUGS

A person can be arrested by the police and incarcerated (put in jail) for the possession, use, or sale of illegal drugs (including marijuana, crystal methamphetamine, or cocaine). Encourage a family member who has a drug problem to get drug treatment.

TOBACCO SALES TO MINORS ARE ILLEGAL

Chewing or smoking tobacco and second hand smoke are bad for your health and can lead to heart disease and cancer. Tobacco sales to minors (children under the age of 18) are illegal.

CURFEW FOR CHILDREN

Children under the age of 16 cannot be in a public place without adult supervision between the hours of 10:00 p.m. to 4:00 a.m. A child who is in a public place without an adult during these hours can be arrested by the police.

CHILDREN MUST GO TO SCHOOL (TRUANCY)

All children and teens (between the ages of 5 years to 18 years) must attend school. Not attending school or being absent from school without permission from the school is called truancy. A child or teen and his or her parent or guardian can be arrested by the police and disciplined by the school and Family Court for truancy. It is important to contact the school if your child will be absent. It is also important to talk to your child's teacher regularly and to make sure that your child is doing well in school.

CHILDREN MUST NOT RIDE IN THE BACK OF A PICK-UP TRUCK

Children 12 years of age or younger cannot ride in the back or bed of a pick-up truck unless an emergency exists.

RESOURCES IN HAWAII

There are many low-cost or free services for newcomers in Hawaii. This section provides information about these services.

To access any of these services via the Internet, you can go to any public library.

If more services are needed, contact Aloha United Way by calling 2-1-1. Tell them what type of help you need. (Weekday operating hours are 6:00 a.m. – 9:00 p.m. Closed on weekends and holidays.) www.auw.org

APPENDICES

APPENDIX A

Listerine / Shampoo Treatment (Non-toxic treatment)

There are many treatments you can use for ukus. Here is a sample of a non-toxic treatment you can use. Whatever treatment is used, you need to clean your environment and at the same time, continually check for nits until they are gone.

Use original Listerine (brown or orange bottle). Do not use flavored Listerine.

Mix equal portions of Listerine and shampoo.

Shake well.

Apply to dry hair. Do not get into the eyes. Leave on for 10 minutes.

Rinse off, apply conditioner, and rinse again.

Comb hair out and remove dead lice. Remove the nits or eggs. DO NOT SHARE COMBS OR TOWELS WITH ANYONE.

Use this every three days for twelve days, and it will continually kill the live ukus as they are hatching.

APPENDIX B

Preparing for Your Child's Stay in Hawaii

All children 18 years and younger planning to stay in Hawaii for an extended period of time should bring the following items with them:

- Immunization Record
- · Birth Certificate
- Passport (Optional)
- School Transcript or Latest Report Card (if child has attended school)
- Power of Attorney or Guardianship Paper (if not living with parents)

Children should receive ongoing care from a doctor to ensure that their immunizations are up-to-date. Free or low-cost shots are available in Hawaii for children without insurance.

When you arrive in Hawaii, call 2-1-1 for assistance.

APPENDIX C

Hawaii QUEST

Who may apply for Hawaii QUEST?

Individuals who are not age 65 years and old, blind or disabled may apply for medical insurance from the Hawaii QUEST program. An enrollment cap is currently in place for Hawaii QUEST. No more than 125,000 people can be in the program at one time. Until the number of people enrolled in

Hawaii QUEST falls below that number, no new recipients will be enrolled except:

- Individuals and families covered under Section 1931 of the Social Security Act with income not exceeding 100% of the Federal Poverty Level (FPL);
- · people who receive or GA financial assistance;
- people whose income is less than the financial standard of assistance;
- pregnant women and children under age one with household income up to 185% of the FPL;
- children age one but under age six with household income up to 133% of the FPL;
- children under age 19 born after September 30,1983, with household income up to 100% of the FPL;
- foster children and children in subsidized adoptions up to age 21;
- people who lose their employer-sponsored coverage or extended coverage in a group health plan because of loss of employment within 45 days of their date of application;

When Hawaii QUEST enrollment is no more than 120,000 on December 31 of any calendar year, an open application period will be conducted in the following calendar year.

What are the Hawaii QUEST eligibility requirements? To be eligible for Hawaii QUEST, you must:

- · be a Hawaii resident;
- · be a U.S. citizen or qualified alien;
- have a Social Security number;
- · not be certified as blind or disabled
- not be age 65 or over:
- not be living in a public institution;
- have income not more than 100% of the current FPL except for pregnant women and children up to age 6, who may have income up to the amounts listed above;

- not be eligible for health insurance from your employer (except for AFDC and GA recipients).
- · have assets not exceeding the Hawaii QUEST asset limits.

What are the Hawaii QUEST asset limits?

- \$2,000 for a household of one:
- \$3,000 for a household of two;
- \$250 for each additional person.
- Asset limits do not apply to children under age 19 born after September 30, 1983 or to pregnant women for the duration of the pregnancy
