Process: Training and preparation has been stepped up since 9/11. This team continues to participate in and assist in providing training classes/workshops to DOD and State Civil Defense.
Civil Rights Litigation Division

The Civil Rights Litigation Division provides legal defense to the State, its departments and agencies, and certain state employees in lawsuits or other claims that involve allegations of constitutional or civil rights violations. This defense includes, but is not limited to, answering legal complaints filed in court, investigating claims, conducting discovery, filing motions as determined to be necessary, and representing state interests at arbitrations, mediations, and trials.

**GOAL 1: PROVIDE QUALITY LEGAL REPRESENTATION TO CLIENTS**

**Objective 1:** Provide assistance to division deputies with regard to issue identification and case strategies, and other aspects of case handling.

**Action Plan:** Facilitate discussion of case specific issues as requested. At the present time, deputies are encouraged to present issues and solicit input on their cases at weekly division meetings,\(^1\) or to request ad hoc meetings to discuss issues, as-needed. Informal one-on-one mentoring by more experienced deputies is also encouraged, and is occasionally mandated by specific case assignment.

**Objective 2:** Continue to improve the level of competence of all division staff with regard to their specific job responsibilities.

**Action Plan:** Explore the availability of training opportunities, including in the areas of trial advocacy, computer skills, legal writing and legal research, and encourage staff to take advantage of all such opportunities, as fiscal resources will allow. Continue to make efforts toward establishing a system of in-house training as time permits, drawing upon the expertise of division members and other department personnel.

**Objective 3:** Facilitate positive relationships with division clients.

**Action Plan:** Encourage the identification and implementation of improved means of communication with clients. Reinforce with division deputies the importance of keeping clients apprised of significant case events, particularly regarding potential settlement or other case resolution. Additional efforts will be made to ameliorate the concerns of state employees sued in their individual capacities, especially employees who are being sued for the first time and are not familiar with the litigation process. With the change in the federal rules relating to electronic discovery (e-discovery) and the obligations of the departments and its employees to avoid spoliation issues, the deputies will meet with the appropriate agency employees at the earliest possible opportunity when there is potential litigation or a lawsuit is filed to ensure compliance with e-discovery requirements.

**Objective 4:** Assist with client training and special projects, as requested.

**Action Plan:** Participate in client training upon request of the client. This includes the provision of informal advice over the phone or in person, and participation in formal training. CRLD also provides staff to assist with special client projects, as requested. This past year, both CRLD and TLD deputies again participated in the training of deputy sheriff recruits at the request of the Department of Public Safety, and will likely be doing so again in the future.

**Objective 5:** Promote the use of informal, mini Litigation Review Committees (LRCs).

---

1 The Civil Rights Litigation and the Tort Litigation Division continue to have joint meetings on a weekly basis.
Action Plan: In addition to the weekly division meetings, CRLD continues to routinely utilize informal, mini LRCs as a means of discussing case-specific issues, such as issues relating to liability, case strategy, and case value. Depending on the issue being presented, the participation of deputies from other divisions who may have relevant expertise is often sought. This practice improves the level of service CRLD is able to provide to its clients because the deputies have the benefit of group discussion and group knowledge on important case issues.

Objective 6: Reduce the number of meritless or frivolous lawsuits.

Action Plan: Emphasize to the deputies the need to immediately identify legally unsupportable claims and file dispositive motions at the earliest opportunity. Take a firm line with respect to settlements to send a message to the plaintiff bar and the courts that unless compelling reasons exist, cases will not be settled when the State has no liability, even for a nominal amount.

GOAL 2: INCREASE THE LEVEL OF KNOWLEDGE OF DIVISION DEPUTIES AND LEGAL ASSISTANTS IN SUBSTANTIVE CIVIL RIGHTS LAW

Objective 1: Continue to identify sources of relevant information.

Action Plan: Encourage the use of current business tools, such as the Internet, as a foundation of continuous learning. Explore the availability of speakers, seminars, videotapes, and workshops relating to current civil rights issues. Facilitate interaction between CRLD deputies and deputies from other divisions who handle cases involving civil rights issues (e.g., ADA, Section 504).

Objective 2: Facilitate the acquisition of relevant materials.

Action Plan: Continue efforts to obtain treatises and other publications of specific relevance to the division, such as treatises regarding prison litigation or civil rights law. This includes obtaining materials disseminated at relevant seminars, held both locally and on the mainland.

GOAL 3: PROMOTE A POSITIVE WORK ENVIRONMENT

Objective 1: Encourage open communication among all division staff members.

Action Plan: Continue to include clerical staff in meetings as appropriate, to improve communication and increase participation of all CRLD personnel in matters of concern or interest to the division. The division supervisor will also continue to have an open-door policy and invite input or comments from all division staff regarding day-to-day concerns and input on how the division can be improved.

Objective 2: For support staff, increase their understanding of the overall legal process (i.e., how their work “fits in” with the handling of a case).

Action Plan: As time permits, encourage staff members (both legal assistants and legal clerks) to attend trial sessions and hearings in order to facilitate a better understanding of the overall legal process and the integral part they play in CRLD’s handling of a case. It is anticipated that this practice will facilitate positive morale and increase staff members’ pride in their work. This past year, staff members again attended depositions, court hearings and arbitration proceedings.

Objective 3: Seek and accept assistance from volunteers/externs.
**Action Plan:** This past year, CRLD and TLD were fortunate to have the benefit of a legal assistant extern during the summer months. The volunteer was able to assist with substantive matters (e.g., doing legal research and drafting deposition summaries) and also with various aspects of case preparation, such as compiling and marking exhibits. This legal assistant student was very pleased with her experience and reported back to her instructors at Kapiolani Community College that she would highly recommend other students to provide volunteer services to both CLRD and TLD.

**GOAL 4: MAXIMIZE USE OF DEPARTMENTAL/OTHER TECHNOLOGY**

**Objective 1:** Facilitate increased proficiency among division staff in the use of ProLaw, iManage, and the departmental intranet.

**Action Plan:** Encourage sharing of information and expertise among division staff, and take advantage of any training opportunities available in-house or from outside resources. TLD and CRLD have created a databank of expert depositions and expert information in iManage to replace the databank that started on Summation. A training session was held to explain how the databank can be accessed and searched. Deputies and legal assistants are encouraged to attend training on Westlaw in an effort to strengthen their legal research skills and provide increased assistance to their assigned deputies.

**PROCESS:** Assessment will depend in large part on input and comments from clients, as well as self-assessment through internal discussion and observation of staff morale and other indicators of progress, such as increased work pace and productiveness.
**Commerce and Economic Development Division**

The Commerce and Economic Development Division (CED) provides legal services and litigation support to the Department of Commerce and Consumer Affairs (including the professional and vocational licensing boards), the Department of Business, Economic Development, and Tourism (including the Aloha Tower Development Corporation, the Hawaii Strategic Development Corporation, the Hawaii Tourism Authority, the High Technology Development Corporation, and the Natural Energy Laboratory of Hawaii Authority), and the Department of Agriculture (including the Agribusiness Development Corporation. The division also enforces the antitrust laws, administers the laws providing for the commissioning of notaries public, and provides legal services to the Board of Trustees of the State's Deferred Compensation Plan and to other state agencies involved in administering tax deferral programs.

CED has three separate missions.

1. Provides a full range of legal services including advice and counsel; document, rules, and legislation review; and advocacy in litigation in administrative and judicial arenas for its client departments. (The division provides legal services to the Department of Commerce and Consumer Affairs, the Department of Business, Economic Development and Tourism, the Department of Agriculture, and their attached agencies. The division also advises agencies with tax deferring benefit programs including deferred compensation and tuition savings programs.)

2. Enforces the antitrust laws. In this role, the division reviews mergers, investigates complaints of anticompetitive behavior, and participates with other states and federal agencies in investigations and litigation to require compliance with antitrust laws.

3. Administers chapter 456, Hawaii Revised Statutes, which involves the commissioning and regulation of notaries public.

Given these distinct responsibilities, this report is organized into two parts, with the first addressing the duties of the division as legal counsel and antitrust enforcement and the second discussing its operational role regarding the notary program.

**PART 1. LEGAL SERVICES TO CLIENT AGENCIES**

**OVERALL GOAL:** Provide legal services that are timely, effective, efficient, and of high quality, to all client agencies.

**GOAL 1:** Improve on using existing knowledge, expertise, and resources within the division to deliver services to all clients.

Objective 1. Develop resource bank for common issues, have team meetings to discuss recurring issues and problems, and cross train attorneys.

Objective 2. Meet regularly with key staff at client agencies to obtain their views on their legal needs currently and in the future, any concerns regarding the provision of legal services.

Objective 3. Assess need for adjustment of assignments within CED to cover services to clients either as primary or to provide attorneys as backup.

Objective 4. Develop resources to handle anticipated increase in litigation workload.

**Action Timetable:** Throughout the year.
GOAL 2: Monitor distribution of workload and timeliness of output for each attorney in the division.

Objective 1. Conduct case review meetings with each attorney in the division on a regular rotating basis.

Objective 2. Review timesheets regularly to assess workload distribution.

Objective 3. Adjust assignments so that each major client has both a primary and a secondary attorney to ensure continuity of service during leaves or at times of excess workload.

Objective 4. Develop system for tracking receipt of legal documents for review and for monitoring timeliness of return of documents to client.

Action Timetable: Objectives will be addressed on an ongoing basis throughout the year.

GOAL 3: Develop mechanisms to obtain feedback from directors of client departments and other key staff on routine basis.

Objective 1. Maintain practice of monthly meetings with the director of the Department of Commerce and Consumer Affairs to discuss pending matters, upcoming issues, and any areas of concern.

Objective 2. Contact directors of other client departments to ascertain what method for scheduled communication is desirable for them.

Action Timetable: Both objectives are ongoing projects.

GOAL 4: Enhance the division’s involvement in antitrust enforcement, multistate initiatives such as those involving the National Association of Attorneys General, and improve response to consumer complaints.

Objective 1. Maintain communication between the division and other agencies (such as the Office of Consumer Protection, the Regulated Industries Complaints Office, the Public Utilities Commission, the Insurance Division, the Securities Enforcement Unit, and other private and federal entities) so that consumer complaints are appropriately and quickly referred for handling.

Objective 2. Improve relationship and coordination between the division and federal agencies with overlapping jurisdiction (U.S. Department of Justice and Federal Trade Commission).

Objective 3. Establish guidelines for prioritizing use of resources in responding to requests for participation in National Association of Attorneys General multistate efforts and in-house antitrust efforts.

Objective 4. Train attorneys providing advice and counsel to state agencies in antitrust issues so that they are sensitive to the antitrust implications of their clients program initiatives.

Action Timetable: Great strides have been made in meeting this objective particularly in coordinating multistate initiatives between the division and the Office of Consumer Protection. Ongoing communication and interaction between the division and federal agencies are developing as each new case arises.
Guidelines for prioritizing our resources are being applied and modified as necessary.

**GOAL 5:** Improve technology skills for staff and attorneys.

Objective 1. Train staff to improve skills and efficient use of new technology.

Action Timetable: This is an ongoing process throughout the department.

**PART 2: OPERATING THE NOTARY PROGRAM**

**GOAL 1:** Modernize and upgrade the regulation of notaries public.

Objective 1. Continue to educate notaries public and users of their services regarding the administrative rules implementing the current law governing the regulation of notaries.

Objective 2. Develop a hearings process to adjudicate cases involving notary misconduct.

Objective 3. Acquire the equipment and implement the computerization of the recordkeeping function of the notary program to replace the current manual filing system and to permit microfiching or other electronic storage of records.

Objective 4. Develop a system for computerization of processing notary applications.

Action Timetable: All objectives are ongoing.

**GOAL 2:** Increase revenues and improve staff support for the notary program.

Objective 1. Implement new fee schedule through administrative rules.

Objective 2. Integrate new staff position into the program’s functions.

Action Timetable: These activities are ongoing.

**PROCESS FOR MEASURING PERFORMANCE**

The division supervisor is charged with overseeing the implementation of these goals and objectives and will make a review of progress on a quarterly basis.
Criminal Justice Division

The Criminal Justice Division performs prosecutorial functions on behalf of the State in areas such as welfare fraud, tax fraud, unemployment fraud, unauthorized practice of law, and public corruption. The division is also responsible for prosecuting Internet crimes against children, high technology crimes, Medicaid fraud and elder abuse, violations of state tobacco laws, drug nuisance, environmental crimes, cold homicide cases, and conflict cases from the four county prosecutors' office.

The division includes a core unit that handles many of the division's general responsibilities, and six specialized units. The Investigations Division provides investigative support.

The core unit prosecutes crimes committed against the State, crimes committed by state employees, public corruption cases, cases generated by airport sheriffs, conflict cases from county prosecutors, cold case homicides, sex offender registration violations, and other cases related to the enforcement of state criminal laws. The unit also assists in the coordination of state and county law enforcement efforts, provides legal support to state departments on criminal justice issues, and attempts to improve state criminal laws and the criminal justice system through legislative advocacy.

The Asset Forfeiture Unit administers the state Asset Forfeiture Program. It reviews and makes decisions on petitions submitted by the various county prosecutors seeking seizure of property tied to illegal activity. It is responsible for the storage, maintenance and auction of forfeited property. It also handles the distribution of forfeited assets. The unit processes approximately $1,000,000 in forfeitures each year. Forfeiture proceeds are used, in part, for training and education of law enforcement personnel and purchase of equipment for law enforcement purposes.

The Internet and Technology Crimes Unit investigates and prosecutes white-collar computer fraud cases and other computer related cases in addition to providing computer forensic services to state, county and federal law enforcement agencies. The unit also focuses on Internet child enticement cases.

The Medicaid Fraud Control Unit investigates and prosecutes provider fraud involving medical assistance programs as well as patient abuse and neglect statewide.

The Nuisance Abatement Unit files civil petitions for injunctive eviction of persons associated with drug houses in communities. The unit uses the civil process to remove individuals that have been shown to be associated with illegal drug activity.

The Tobacco Enforcement Unit is responsible for enforcement of tobacco tax laws and implementation of the Tobacco Master Settlement Agreement. It is funded by tobacco tax revenues pursuant to the Tobacco Master Settlement Agreement.

The Wire, Oral, and Electronic Communication Surveillance Review Unit is responsible for reviewing applications for interception of wire, oral, or electronic communications prior to their submittal to a designated judge. An attorney will review the application in a timely manner and recommend any necessary additions or changes. A written memorandum recommending approval or disapproval will be submitted with the application to the designated judge. The unit works with local law enforcement officers and prosecutors from each of the counties to establish standards and procedures to ensure continuity and conformity with the applicable law.

DIVISION GOALS

- Vigorous prosecution of crimes against the State, crimes committed by state employees, conflict cases referred to division by county prosecutors, and offenses arising under the jurisdiction of specialized units within the division.
- Further development of the Wire, Oral, and Electronic Communication Surveillance Review Unit.
- Further improvement of case-management and data integration within the division.
Further implementation of “direct filing,” sentencing reform, sex offender registration, DNA database, and other laws and constitutional amendments that promote efficient law enforcement.

DIVISION OBJECTIVES

- Greater efficiency and utilization of resources to effectively manage the division’s caseload, which is increasing in both size and scope.
- Implement more time-management guidelines and data capture capability to improve case management within the division.
- Continue to support legislation that is beneficial to the law enforcement community, including the Law Enforcement Coalition.

DIVISION ACTION PLAN

- Continue to develop and implement division-wide policies that promote consistency in treatment, prosecution, plea negotiation, and sentencing.
- Coordinate written and oral testimony with the Hawaii Prosecuting Attorneys’ Association and the state Law Enforcement Coalition to give guidance to the legislature concerning law enforcement issues.
Asset Forfeiture Unit

The Criminal Justice Division administers the state Asset Forfeiture Program pursuant to Chapter 712A, HRS. Chapter 712A provides for the forfeiture of property used or acquired in connection with the commission of certain criminal offenses and for the distribution of the property, or its proceeds, to law enforcement agencies for law enforcement purposes. The goal of the program is to deprive criminals of the financial benefit of their criminal activities and the means by which they commit crimes, and to use the proceeds and forfeited property to provide law enforcement with additional training and equipment to help fight crime. The unit manages the administrative forfeiture process, and stores, maintains, and auctions the property.

GOAL 1: Continue to improve operations of the state asset forfeiture unit.

Objective 1: Update operations manual for asset forfeiture program.

Action Plan: Modify operations manual based on any changes to procedures.

Objective 2: Cross-train other division staff, who can then assist with unit in the absence of a member of the unit.

Action Plan: Provide training to division staff members on the forfeiture process.

Performance Indicator: A minimum of one division staff member will be trained each year.

Objective 3: Continue to improve data management system to allow for more efficient and effective generation of data reports.

Action Plan: Review of the data management system by a specialist and implementation of suggested improvements.

Performance Indicator: Generation of at least two efficient and effective data reports.

Objective 4: Promulgate rules, policies and procedures pursuant to chapter 712A for more efficient operations.

Action Plan: Review collection of rules from other jurisdictions and work on proposed rules.

Performance Indicator: Draft of proposed rules.

GOAL 2: Continue to meet or exceed historical norms in next fiscal year.

Objective 1: Continue to coordinate efforts between deputy and program staff.

Action Plan: Continue asset forfeiture unit meetings to discuss, review, and implement procedures to efficiently process documents (orders, petitions, training requests) for approvals in a timely manner.

Performance Indicator: A minimum of three asset forfeiture unit meetings per year.

Objective 2: Continue to monitor storage space needs.

Action Plan: Seized/Forfeited Property Manager will continue to work with counties, negotiate with landlords regarding storage space and needs. If necessary, locate larger facility or consider option of having counties store and maintain their own property.
Performance Indicator: Storage space sufficient to store property and timely distribution of forfeited property.

GOAL 3: Provide training to law enforcement re: forfeiture process:

Objective 1: Coordinate efforts between seizing agency, county prosecutors, and asset forfeiture unit.

Action Plan: Asset forfeiture unit will provide training to the various county prosecutors and law enforcement personnel. County prosecutors and law enforcement personnel will identify issues prior to training.

Performance Indicator: Asset forfeiture Unit will provide a minimum of two training sessions by the end of the year.
Drug Nuisance Abatement Unit

The Drug Nuisance Abatement Unit will continue to assist other law enforcement agencies and our communities in closing down drug houses and disrupting the distribution and manufacture of drugs in our State. The unit’s major goals include:

GOAL 1: Improve coordination with and sharing of resources with other county, state and federal law enforcement agencies

To effectively close down drug houses, coordination and sharing of resources with other law enforcement agencies are a paramount priority. Coordination is essential so that law enforcement agencies do not duplicate work or compromise another agency’s ongoing investigations.

Presently, the Unit has an informal agreement with the Honolulu Police Department, the Hawaii County Police Department, and the Hawaii County Office of the Prosecuting Attorney. The Unit also has a memorandum of understanding with the Kauai County Office of the Prosecuting Attorney and the Maui County Department of the Prosecuting Attorney, which sets out the policy relating to sharing of information and coordination of criminal and civil nuisance abatement lawsuits. These agreements have contributed to the sharing of information. The Unit will continue to work to improve coordination with other law enforcement agencies and streamline the process for the sharing of information and investigative reports.

GOAL 2: Decrease the Backlog of Complaints

Due to the Unit’s success in closing down drug houses and educating the public, the Unit has received a large number of complaints. Specifically, since July 2003, over 1,667 complaints (as of August 29, 2008) about drug houses and illegal drug activity have been made to the Unit.

The backlog has decreased with the addition of 1.5 investigators. The hiring of a PT investigator to service the Kona portion of Hawaii while the other PT investigator services Hilo has contributed to a more efficient use of resources and time. In addition, the Unit’s investigators have been able to focus more time on investigations because the addition of a temporary clerk typist has relieved the investigators of clerical type duties such as reviewing complaints, entering case data into the drug nuisance database, and corresponding with landlords, government officials, and other government agencies.

The Unit has also been using warning letters on a more frequent basis. In appropriate situations, where the investigator believes that there is sufficient evidence that a drug nuisance is occurring on private property, the Unit has sent letters to landlords informing them of the condition, advising them to take corrective measures, and warning of the possibility of forfeiture. A similar procedure is used by other local law enforcement agencies. The investigator then monitors the case to see if the landlord abates the drug nuisance. This procedure has been used sparingly due to concerns about its effectiveness. However, in order to decrease the backlog, the Unit will use warning letters on a more frequent basis. The Unit will monitor the plan to analyze the effectiveness of the warning letters.

GOAL 3: Increase the number of drug nuisance abatements

Decreasing the backlog in the Unit directly relates to increasing the number of drug nuisances abated. Therefore, the Unit expects that its implementation of the solutions described above will also result in increased closings of drug houses and nuisances.

In addition, the Unit may be able to improve its effectiveness and increase the closure of drug houses and nuisances by raising community awareness about the drug nuisance abatement process.

In a substantial percentage of the complaints received by the Unit, other law enforcement agencies have been unable to obtain sufficient evidence in order to obtain a search warrant to search a suspected drug house. In a related operation, law enforcement agents informally contact suspects in a suspected drug
The purpose of this operation is to put suspected drug dealers on notice that their activities are being monitored. We expect that this operation will allow the unit to become more proactive in dealing with complaints of illegal drug activity. The Unit will look at this tool and reviewing the general plan and procedures of the Unit to determine how its resources can best be used to assist communities in closing down suspected drug houses.

During the past five years, the Unit’s investigators have successfully used personal contact with landlords to quickly solve complaints of suspected drug dealing out of rental units and residences. By dealing with the landlords directly and in an informal manner, the investigators have been able to quickly investigate many complaints and resolve problems more quickly and avoid the more lengthy process of a civil lawsuit and criminal investigations.

GOAL 4: Raise Communities’ Awareness of the Drug Nuisance Abatement Process

Since the formation of the unit in July 2003, the department has used several methods to inform the community about the nuisance abatement process: (1) information on the department’s Web site; (2) presentations at neighborhood board meetings; and (3) presentations through other community and professional groups.

To continue to raise public awareness of the drug nuisance abatement process, members of the unit will continue to make presentations to community and professional groups. For example, in August 2008, the Unit participated in the National Night Out program, which is designed to heighten crime and drug prevention awareness, for the fourth year in a row. In March 2008, the Unit participated in a panel conducted by the Community Associations Institute, Hawaii Chapter, and made a presentation on the issue of abating drug activity in our communities. All of these events were well attended.

The unit is also working with other government agencies to make presentations to community groups on other islands.

The unit is working to improve its ties to the neighborhood boards. The unit may be able to raise awareness of its drug nuisance abatement program by giving updates to the appropriate neighborhood boards about drug nuisance abatement lawsuits filed against residences in their neighborhood.

Goal 5: Review the General Policies and Procedures of the Unit to Maximize Results

The Unit will review its general policies and procedures. The purpose of this review is to maximize the Unit’s efforts in assisting other law enforcement agencies and our communities in closing down drug houses and disrupting the distribution and manufacture of drugs in our State and to determine whether general policies and procedures need to change in order to accomplish those goals.

PERFORMANCE INDICATORS

Number of closed cases in relation to total amount of complaints
Number of drug nuisance abatement lawsuits
Number of presentations and estimated number of attendees
**Internet and Technology Crimes Unit and Hawaii High Technology Crimes Unit (HHTCU)**

**GOAL 1:** To increase the effectiveness and efficiency of investigations and prosecutions of computer related crimes in the State.

**Objective 1:** Continue to increase the investigative capabilities of local law enforcement officers in the detection, investigation, and apprehension of computer related crimes.

**Objective 2:** Increase the number of computer related cases being investigated by the State.

**Objective 3:** Maintain our multi-agency task force response to computer related crimes in the State and increase participation.

**Objective 4:** Maintain and increase our public awareness and prevention programs.

**PROJECT DESIGN/STRATEGY AND TIMELINE**

With respect to Objective (1), we will continue to obtain and provide specialized equipment to properly investigate and prosecute computer related crimes, provide presentations and training to local law enforcement officers that address investigative techniques (proactive/undercover and reactive) related to computer crimes, and provide law enforcement agencies with the technical assistance and training needed to properly investigate computer related crimes.

With respect to Objective (2), we will continue to provide the task force with trained investigators, qualified computer forensic examiners, technical assistance/support, and the specialized equipment to properly investigate and prosecute a computer based crime. Each task force participant will be allowed use of equipment and personnel to complete or assist with computer related investigations.

With respect to Objective (3), we will continue to provide a structured forum between State, county and federal law enforcement agencies to coordinate investigations and prosecutions, maximize sources of technological and investigative expertise, training and education, and forensic resources. To date, we have 24 law enforcement agencies from federal, State, and county law enforcement agencies participating on our task force in Hawaii, and 12 government agencies in Guam, Saipan, and the Northern Mariana Islands. Many of these agencies were targeted from the beginning as a critical component of this coalition and have been supportive of HHTCU’s efforts. These law enforcement agencies consist primarily of investigators, computer forensic examiners, and prosecutors. Formal task force meetings are being conducted semi-annually.

With respect to Objective (4), we will continue to provide outreach education, awareness, and prevention programs to children, parents, educators, and community groups as well as maintain and update our informational website at www.hicac.com and www.hitechcrimes.com. In July 2008, we designed a project entitled “Your Identity is Your Kuleana” to develop and bring to Hawaii train the trainer courses concerning awareness and prevention of identity theft.

**Hawaii Internet Crimes Against Children Task Force (HICACTF)**

**GOAL 1:** To increase the effectiveness and efficiency of investigations and prosecutions of ICAC offenses.

**GOAL 2:** To increase public awareness and prevention of ICAC offenses.

**Objective (a)** Continue to increase the investigative capabilities of law enforcement officers in the detection, investigation, and apprehension of ICAC offenses through training, assistance, and education.

**Objective (b)** Conduct and assist in proactive and reactive ICAC investigations.
Objective (c) Increase the number of ICAC offenses being investigated and prosecuted by the State.

Objective (d) Maintain our multi-agency task force response to ICAC offenses in the State and increase participation.

Objective (e) Maintain our nationwide participation and response to ICAC offenses.

Objective (f) Maintain and increase our ICAC public awareness and prevention programs.

PROJECT DESIGN/STRATEGY

With respect to Objective (a), we propose to continue to obtain specialized equipment to properly investigate and prosecute ICAC offenses, identify and provide presentations and training to law enforcement officers that address investigative techniques related to ICAC offenses, and provide law enforcement agencies with the technical assistance and training needed to properly investigate ICAC offenses. We continue to work with the ICAC Director of Training and Technical Assistance, SEARCH, NCMEC, and other training organizations to bring ICAC trainings to Hawaii.

With respect to Objective (b), we propose to conduct and assist in undercover Internet operations in traveler and child pornography cases, and respond to ICAC offenses both locally and nationally (e.g., NCMEC Cybertip referrals).

With respect to Objective (c), we propose to provide the task force with trained investigators, qualified computer forensic examiners, and the specialized equipment to properly investigate and prosecute ICAC offenses. Honolulu Police Department has assigned detectives to assist in investigating ICAC offenses. This agency employs the largest number of law enforcement officers in the state and receives the majority of the public reporting incidents. Accordingly, we believe that more active involvement with this task force member is a considerable step in the right direction to sustainability with zero cost to the grant. Our federal counterparts have been approached to increase investigation of ICAC offenses as a result of Project Safe Childhood. Administrative meetings are ongoing to strategize on increasing joint investigations and prosecutions. This is another positive step as administrators begin to understand the depth, scope, and importance of ICAC crimes. We are also identifying prosecutorial training programs to host in Hawaii to increase prosecutions of ICAC offenses, and we are working with the U.S. Attorney’s Office to familiarize federal, state, and county prosecutors with court procedures regarding ICAC prosecutions. In 2008, Hawaii enacted laws that impose a mandatory ten year jail term for Electronic Enticement in the First Degree and established the new offense of Indecent Electronic Display to a Child. These recent enactments reflect a growing understanding and appreciation of the seriousness of ICAC offenses and will assist us in increasing prosecutions.

With respect to Objective (d), we propose to continue to provide a structured forum between State, county and federal law enforcement agencies to coordinate investigations and prosecutions, maximize sources of technological and investigative expertise, training and education, and forensic resources. To date, we have 24 law enforcement agencies from federal, state, and county law enforcement agencies participating on our task force in Hawaii, and 12 government agencies in Guam, Saipan, and the Northern Mariana Islands. As a result of a decrease in computer forensic examiners in Hawaii and the increase in the number of forensic examinations being requested, a concerted effort to organize task force computer forensic examiners continues to be a priority.

With respect to Objective (e), we propose to continue to participate, collaborate, and integrate with existing ICAC task forces, the National Center for Missing and Exploited Children, and federal, state, and county agencies.

With respect to Objective (f), we propose to continue to provide outreach education, awareness, and prevention programs to children, parents, educators, and community groups, and maintain and update our informational website at www.hicac.com. With the assistance of our task force members, we have
increased the number of presentations to community and school groups each year. We presently average about six presentations each month, in addition to media requests (e.g., newspaper, local print publications, television, radio) about one or two times each month. We have discussed other avenues of collaboration with Department of Education, Children’s Justice Centers, private schools, and Boys and Girls Clubs.
GOAL 1: To investigate and prosecute provider fraud.

Objective 1: Continue to increase cooperation and collaboration with the Medicaid program’s state administrator (MedQuest).

Objective 2: Expand investigation and litigation of False Claims Act health care fraud cases.

Objective 3: Foster working relationships with other states’ Medicaid Fraud Control Units and the Federal government involved in multi-jurisdictional provider health care fraud.

Objective 4: Improve working relationships with federal law enforcement agencies - the Office of Inspector General, Federal Bureau of Investigations and United States Attorney’s Office – in all aspects of provider health care fraud.

Objective 1: Further expansion of intakes of Adult Protective Service, Department of Human Services complaints and intakes.

Objective 2: Increase the cooperation and collaboration with local county police and prosecutors in the area of investigations and prosecution of abuse and neglect of the elderly dependent adults. Assist these law enforcement agencies in all aspects of the criminal prosecution.

Objective 3: Increase investigations and prosecutions, statewide, of cases of elderly dependent adult abuse and neglect.

Objective 4: Continue to develop ways to increase public awareness of this severely under-reported crime by participating in, and/or sponsoring training seminars and conferences on this topic.

GOAL 3: To recover Medicaid and Medicare money unlawfully or improperly obtained by providers of health care programs.

Objective 1: Work with Federal investigators and prosecutors in the ongoing cases of provider health care fraud.

Objective 2: Continue to prosecute cases against health care providers under the Hawaii False Claims Act.

Objective 3: Improve communication and coordination with MedQuest and the state fiscal intermediary. Improve and implement information technology between the division and state fiscal intermediary.

Objective 4: Strive to efficiently resolve and settle disputes without excessive expenditures of personnel and financial resources.

GOAL 4: To strengthen state and local law enforcement in all aspects of fraud and abuse against elderly dependent adults and patients of health care facilities who receive payment of program funds.

Objective 1: Initiate multi-jurisdictional case-driven task forces and information exchange work groups such as Governor’s Committee on Elder Abuse, Executive Office on Aging, Office of Inspector General and United Government Services.
Objective 2: Support legislation and policy-making efforts by various agencies and government committees.

GOAL 5: Deter individuals and organizations from committing fraud, or patient abuse and neglect.

Objective 1: Aggressive investigation and prosecution of all cases of fraud and abuse and neglect.

Objective 2: Secure just punishment and other sanctions, including imprisonment in those cases that warrant such punishment.

Objective 3: Seek damages against corporations and individuals who are found liable under the Hawaii False Claims Act or of Dependent Elder Abuse (H.R.S. § 28-94), including restitution, fines and applicable costs.

ACTION PLAN

The unit’s short-term plans include realization of all stated objectives with an emphasis on continued and improving relations with relevant federal, state and county organizations. The unit already maintains working relationships with local county police departments and state agencies involved in this area by jointly working cases, and conducting training and seminars. The unit will continue to foster stronger working relationships with independent organizations like the United Government Services and the State’s Medicaid fiscal intermediary.

The unit will maintain and expand upon its review of all Adult Protective Services complaints and intake matters. The unit will further improve upon a recently implemented case management system to promote more interoffice and intra-office efficiency. The unit will continue to be goal and objective oriented in its prosecution of fraud and abuse cases. We will implement policies that foster timely case (objective) closures and greater casework efficiency utilizing teams that consist of a deputy attorney general, investigator and auditor.

The short-term plans also include the continued prosecution of statewide cases of abuse and neglect. The unit will also continue prosecution of Medicaid fraud against providers of health care. For the long-term, the unit will attempt to organize a multi-disciplinary task force responsible for enforcing regulations, rules and statutes in an effort to prevent severe patient-neglect abuse type cases. The unit already assists with and will continue to become more involved in the area of financial exploitation of the elderly dependent adults within the unit’s jurisdiction.

The unit will also continue to support legislative and policymaking efforts by various governmental agencies and committees to protect the vulnerable elderly and dependent adults.
Tobacco Enforcement Unit

The Tobacco Enforcement Unit was formed on July 1, 2000, in response to the Attorney General’s obligation to enforce the Master Settlement Agreement (MSA); the State’s Tobacco Liability Act as codified in chapter 675, Hawaii Revised Statutes; and the cigarette tax stamp requirements and prohibition against the sale of prohibited export and foreign cigarettes as codified in chapter 245, Hawaii Revised Statutes. The unit consists of a unit supervisor, cigarette tax prosecutor, MSA civil prosecutor, legal clerk, legal assistant, seven criminal investigators, and an auditor. The unit will continue to respond in a professional and timely manner to all matters related to tobacco enforcement.

Objective: To ensure that State laws are followed with regard to the taxation, importation, and sale of tobacco products, and that the State receives a full measure of all present and future tobacco settlement payments and taxes to which it is entitled.

This objective is influenced by the complexities of tobacco enforcement and regulation. The responsibilities of the unit span both the civil and criminal arenas. By statute, the unit is charged with enforcing and implementing the terms of the MSA, chapter 675, and other related statutes. The unit is also statutorily responsible for the enforcement of the provisions of chapter 245 that pertain to Tobacco Stamp Taxation and the prohibition against contraband cigarettes.

Program size: The target groups include more than 150 cigarette manufacturers worldwide. For the purpose of MSA, chapter 675, and chapter 486 enforcement, it is necessary to gather data on those manufacturers whose cigarettes are sold in Hawaii. In addition, the unit is responsible for inspecting, investigating, and auditing the 40 authorized cigarette stampers and more than 1,000 stores statewide for compliance with chapter 245 and related statutes. In fiscal year 2007-2008, the unit will continue to enforce the provisions of Act 131, SLH 2005 that require any entity involved in the retail sale of cigarettes or other tobacco products to obtain a retail tobacco permit issued by the Department of Taxation.

The State will receive approximately $135 million (more than $90 million in cigarette taxes and $45 million in MSA payments) in fiscal year 2008-2009, all of which is tied to proactive enforcement of chapter 245 and chapter 675. Proactive enforcement requires investigators to conduct inspections at the wholesale and retail level to ensure that only compliant cigarettes are being stamped and sold in Hawaii.

Aggressive enforcement has yielded significant results by way of increased cigarette tax revenues. The following table shows the cigarette tax revenues reported by fiscal year:

To date, the State has received more than $379 million in MSA payments. MSA compliance is now very much a part of the inspection process at the wholesale and retail level. This MSA compliance check is designed to facilitate diligent enforcement of chapter 675 and the terms of the MSA. Estimated MSA payments for fiscal year 2008-2009 are approximately $45 million.

Effective September 30, 2008, the cigarette tax rate will increase to $0.10 per stick or $2.00 per pack. At a consumption rate of approximately 1.1 billion cigarettes per year, this yields a potential cigarette tax yield of more than $90 million in fiscal year 2008-2009.

The division has continued to cross train deputies by assigning a wide variety of cases to each deputy teaming experienced counsel in certain areas as back up or second chair to less experienced deputies. E-filing in federal court is now well established, and all support staff are fully capable of e-filing. We are completing our second year of standardized procedures with the Department of Education, especially in Workers Compensation. A Deskbook concerning procedures for all areas of our practice is about 80 percent complete and should be finished early next year. It is designed to be used by both ourselves and our clients.

We have made a point of making ourselves available to clients for meetings in advance of taking action or making decisions. We have met with the directors or deputies of DAGS, B&F, DBEDT, DOE, DOH, DDHS, DLIR, DLNR, DHRD, PSD, DOT, and RCUH.

One is to train workers compensation adjusters in DHRD in case presentation before the Disability and Compensation Division of the Department of Labor. The other is a general offer to a number of departments to assist in training/advising employees assigned to do personnel investigations.
Family Law Division

The Family Law Division handles all state litigation under the jurisdiction of Family Court, such as child and adult protection, guardianships, truancy, adolescent mental health cases, and involuntary civil mental commitment hearings. **Goal:** Provide high quality legal representation in Family Court to our various clients.

**Objective 1:** Improve the basic legal knowledge of the attorneys and legal assistants.

**Action Plan 1:**

Year 1: Continue to have trainings on substantive and procedural issues. These trainings will ideally be statewide using the State’s videoconferencing capabilities. Continue alternate week question and answer sessions.

This also occurs on the neighbor islands.

**Action Plan 6:**

Years 1-5: All of our deputies, including those most recently hired, do their cases from beginning to end including contested hearings, and appeals. We have restructured the Division to set a standard rotation of deputies through the various types of cases from CWS cases to the “specialty” calendar. They spend
about a year on the specialty calendar and then rotate back to the CWS calendar. On an ongoing basis, continue to evaluate how this is working.

**Action Plan 7:**

Years 1-5: Continue twice a month staff meetings to keep up to date on practice and policy changes within our office, and within that of our client. Evaluate whether our new units should be part of these meetings or whether their different substantive areas require separate meetings. Meet with the unit supervisors to discuss issues of concern to their units.

**Action Plan 8:**

Years 1-5: Continue regular post-court briefings to discuss current problems and anticipate future problems.

**Action Plan 9:**

Years 1-5: Continue to expand the roles of the legal assistants. When we added new positions, we started to examine how to use their services more fully. When new people were added, we expanded their role to preparing pre-trials, and doing motions.

**Action Plan 10:**

Years 1-5: As the new units become part of the Division, we need to be able to adapt to these changes and to make the best use of the resources available to do the work. **Action Plan 1:**

Years 1-5: Continue client training for all the agencies we represent.

Years 1-5: Continue to meet with clients on a monthly basis. The supervisor has been attending meetings with the Child Support Enforcement Agency (CSEA) executive staff on an occasional basis. These occur on a monthly basis and include the unit supervisors from Oahu, Hawaii Island, and various departments within CSEA.

**Action Plan 3:**

Years 1-5: Maintain good communication with the client so that emergencies can be handled expeditiously. Our Lotus Notes has been invaluable in keeping us all in touch.

**Objective 3:** Ensure that effective coordination is maintained with other legal services divisions who provide legal advice and counsel to the clients we represent in Family Court.

**Action Plan 1:**

Years 1-5: Meet with appropriate deputies to discuss the problems.

**Action Plan 2:**
Years 1-5: Maintain rapport with the advice and counsel deputies so that problems that need to be litigated will be clearly understood by the deputy doing the litigation.

**Objective 4:** Ensure that appropriate legislation is introduced to address problems encountered at Family Court.

**Action Plan 1:**

Years 1-5: Be aware of problems that arise in Family Court or new federal legislation that may require changes in our state statutes.

**Process:** Continue to monitor through evaluation of attorneys, through meetings with clients and court, and through our statistics whether we are meeting our goals and objectives.

• We continue to work closely with the DHS Ho’opono program to resolve conflicts and complaints before they develop into grievances or litigation. There have been no grievances this year.
• We need to do more training within the division.

Land/Transportation Division

The Land/Transportation Division provides legal services to both the Department of Land and Natural Resources (DLNR) and the Department of Transportation (DOT). These assignments include serving all divisions of the DLNR (Aquatic Resources, Boating, Conservation and Resources Enforcement, Forestry and Wildlife, Land, State Historic Preservation, State Parks, and Water Resource Management) and the DOT (Airports, Harbors, and Highways). The division also provides services to the following attached commissions, boards, or agencies: Kaho'olawe Island Reserve Commission, Natural Area Reserves System Commission, Bureau of Conveyances, the four Island Burial Councils, Hawaii Historic Places Review Board, Hawaii Invasive Species Council, Commission on Transportation, State Highway Safety Council, and Medical Advisory Board. Most tort litigation involving the DLNR or the DOT is handled by another division, but the Land/Transportation Division handles a number of cases involving the State as a landlord and as a source of permits or as regulator. The division is responsible for all quiet title actions involving the State and virtually all state eminent domain actions, the bulk of which are done on behalf of the state highways program. The division prepares land disposition documents for the DLNR and the DOT and prepares office leases for the Department of Accounting and General Services when state agencies rent private property as tenants. The division reviews for legality its clients' contracts and administrative rules. The litigation that the division handles includes enforcement actions for violations of the State Historic Preservation law and the law governing land use in conservation districts and actions for damage to natural resources of the State. The division is working on several of the DOT’s complex construction cases.

GOAL AND OBJECTIVES:

Over the years since 1999, the Division has worked to implement one goal and six objectives. The goal and the six objectives are the following:

GOAL: To Provide High Quality, Timely Legal Services on a Sustained Basis.

SIX OBJECTIVES: 1. Improve the quality of written work 2. Improve litigation skills 3. Attain and sustain optimum efficiency in the provision of legal services 4. Sustain good relations with clients 5. Eliminate backlog of assignments 6. Increase and improve training for deputies and support staff.

The goal and objectives continue to be appropriate for the Division.

In 1999, along with the goal and objectives the division submitted in its first annual report, we presented an action plan to show how we expected to implement each objective in one, two, and five years. We have satisfactorily completed our one and two year action plans for all of the objectives except the fifth objective (Eliminate Backlog). Nevertheless, in FY 2007 we did clear out a good portion of the backlog. For example, our plan for eliminating backlog called for the completion of 10 eminent domain cases, and we closed out 8 in FY 2007.

We do not believe it is necessary at this time to change our action plans for any of our six objectives.

In our annual report for FY 2002, we presented the following modified action plan for Objective No. 5:

"New Action Plan for Objective No. 5:

Objective 5 was Eliminate Backlog of Assignments. We have had some success in this area but need to do more. Our revised action plan for this objective is as follows:

FIRST YEAR (2003)
a. Complete 10 eminent domain cases in backlog.
b. Completed or closed out 77 opinion requests during FY 2003 from a backlog of 141 opinion requests pending on June 2002.

SECOND YEAR (2003-2004)

a. Complete additional eminent domain cases in backlog.
b. Complete or close out additional opinion requests in backlog.

FIFTH YEAR (2008)

a. Complete remaining eminent domain cases in backlog.
b. Complete or close out remaining opinion requests in backlog.

In 2008, we closed 3 eminent domain cases. With respect to backlogged opinions and legal advice requests, we closed out 75 of a total of 209 requests in this category.

In 2005, the Division added the objective described as, "Increase and improve training for deputies and support staff." The action plan to help the Division achieve this goal consisted of the following:

“Action Plan for Objective No. 6:

FIRST YEAR (2004)

a. Assign deputies to do training in areas they know well.
b. Identify other training resources.
c. Identify new topics for training by consulting with deputies and staff and others.

SECOND YEAR (2005)

a. Continue above.
b. Involve as many people in the division as possible trainers.
c. Consult with clients about training need of deputies and possibility of clients helping to pay for training in areas where training is not readily available.
d. Plan procedural manuals for deputies, staff. Find ways to assure they are kept current (may be a departmental project).

FIFTH YEAR (2006)

a. Continue above.
b. Have completed manuals in use.”

We have existing manuals for quiet title actions, eminent domain cases, land court procedures, and reading maps and charts. We still need to develop a contested case manual. As preparation for this, we are working with DLNR to revise and update its rules of practice and procedure. Presently, public hearings on these rules have been held. We will work on the manual as the rules evolve. We hope to complete other manuals as workloads permit.

Training: In FY 2007, L/T D deputies attended seminars both locally and on the mainland as follows:

**PROCESS FOR MEASUREMENTS:**

Our 1999 report included a statement of the process we would use to evaluate the effectiveness of our program plan. We indicated that we would use the following measures of effectiveness:

a. annual written evaluation of deputies by supervisor,
b. client's evaluations, and
c. departmental variance reports.

We plan to continue to use these measures. Additionally, the new computer program, ProLaw, efficiently produces clear, useful statistics on workload and accomplishments. The new printouts have helped us achieve more accurate workload data and thus facilitate bringing our pending workloads up-to-date.
Legislative Division

The Legislative Division provides legal services on matters pertaining to legislation and to proposed administrative rules. The division coordinates the preparation and review of all legislative bills proposed by the executive branch agencies and coordinates the review, monitoring, and evaluation of all legislative bills during and after each session of the Legislature. In addition, the division coordinates, monitors, and reviews the preparation of administrative rules of the Department of the Attorney General. This division also performs the final review of the formal opinions issued by the Attorney General and performs the initial review of complaints involving the Sunshine Law.

GOAL 1: Coordinate the legal services review of legislative proposals of the Executive Branch.

Objective 1: Ensure the timely review of legislative proposals by divisions possessing pertinent subject matter expertise.

Objective 2: Ensure the accurate and effective review of legislative proposals by the divisions to which the proposals were referred.

Action Plan: Years One and Two: Continue to refer legislative proposals to divisions possessing pertinent subject matter expertise; continue to set internal staggered deadlines for the review of legislative proposals by the divisions and maintain the manual and computerized logging methods that have been used to keep track of hard copies of legislative proposals sent to divisions for review; continue to attach to legislative proposals checklists to assist divisions in the review of legislative proposals; and continue to review and double-check the legislative proposals reviewed by the divisions.

Year Five: Seek sufficient funding and data processing staff support to implement procedures to provide for the distribution, review, and editing of legislative proposals in electronic form instead of hard copies (if approved by the Attorney General at that time) through a local area network instead of through the use of hard copies.

Process: Maintain records of performance of the divisions in meeting internal and Governor's Office deadlines and report the information to the Attorney General.

GOAL 2: Coordinate the legal services review of legislative bills pending before the Legislature.

Objective 1: Ensure the effective review of pending legislative bills by divisions possessing pertinent subject matter expertise.

Objective 2: Assist in the reporting of problems discovered during the review of legislative bills by preparing a list of bills to be tracked, determining whether hearings have been scheduled for the bills with problems, ensuring that appropriate testimony is prepared, and reviewing testimony and legal advice letters on those bills.

Action Plan: Years One and Two: Continue to obtain, copy, and distribute bills and legislative committee reports in hard copy form and, when necessary, in electronic form or by links to online webpages to divisions possessing pertinent subject matter expertise needed to effectively review specific bills; continue to maintain the Legislative Bill Tracking System on the ProLaw Information Management System to provide information on the referrals of bills and to provide necessary reports; and continue to maintain manually prepared problem bill lists.
**Year Five:** Seek to establish revised procedures to refer to divisions for review legislative bills and legislative committee reports only in electronic form or by links to online webpages and to incorporate into the new legislative bill tracking system problem bill indicators that will allow computer-generated lists of problem bills.

**GOAL 3:** Coordinate the legal services review of passed legislative bills referred by the Governor for review.

**Objective 1:** Ensure the timely review of passed legislative bills by divisions possessing pertinent subject matter expertise.

**Objective 2:** Assist in ensuring the accurate and effective review of passed legislative bills by the divisions to which the proposals were referred.

Goal 2: Provide legal services in a more consistent timely basis. While the Division is addressing the legal needs of its clients, a single project or lawsuit can sometimes strain our resources. This can result in inconsistent turn around times in addressing some legal matters.

Objective: Establish and maintain a more even response rate.

A. Emphasize action planning, involving more people, for bigger projects.

Action Plan: Establish a model for mobilizing the staff needed to plan and implement an action plan for a given case. Share with the members of the division and the department and implement as needed.

Process for measuring success: Periodic review by division personnel of whether the division is maintaining a planned approach to upcoming events and projects.
C. Eliminate backlog.

Process for measuring success: A more even response rate that can be measured by computerized data.

**Goal 3: Proactive assistance to the client.**

Objective: Anticipate and prepare.

A. Anticipate and assist client with legal issues of general import as they may be identified in ongoing matters.

B. Anticipate and assist client with legislation for the coming session. Engage in communications with the client in August regarding areas of suggested legislation.

Tort Litigation Division

The Tort Litigation Division provides legal defense to personal injury lawsuits and claims made against the State and its departments and agencies. The division does not have primary responsibility for giving advice and counsel to any state department or agency, to provide representation in criminal matters, or to collect moneys owed to the State. In general, the services provided by the division include accepting service of legal complaints for the Attorney General, answering legal complaints made against state department and agencies, investigating claims, conducting discovery on claims, and representing state interests in arbitrations, mediations, and trials.

**GOAL 1:** PROVIDE QUALITY LEGAL REPRESENTATION TO ALL CLIENTS

**Objective 1:** Take advantage of training opportunities, including trial advocacy, legal writing, and legal research.

**Action Plan:** TLD deputies are continuously encouraged to attend seminars and training sessions presented by the local bar association and other organizations, depending upon budgetary constraints. Division clerical staff are also encouraged to take advantage of training opportunities relevant to their job responsibilities. Continue to make efforts toward establishing a system of in-house training as time permits, drawing upon the expertise of division members and other department personnel. With the advent of and increase in “webinars,” more deputies are able to take advantage of training opportunities for less cost.

**Objective 2:** Facilitate positive relationships with division clients.

**Action Plan:** Encourage the identification and implementation of improved means of communication of clients. Reinforce with division deputies the importance of keeping clients apprised of significant case events, particularly regarding potential settlement or other case resolution. Additional efforts will be made to ameliorate the concerns of state employees sued in their individual capacities, especially employees who are being sued for the first time and are not familiar with the litigation process.

**Objective 3:** Assist with client training and special projects, as requested.

**Action Plan:** Participate in client training upon request of the client. This includes the provision of informal advice over the phone or in person, and participation in formal training. TLD also provides staff to assist with special client projects, as requested. Deputies continue to participate in the training of deputy sheriff recruits at the request of the Department of Public Safety. Staff from TLD provides assistance to the Department of Land and Natural Resources (DLNR) with regard to taskforces to address continuing rockfall and water safety issues.

**Objective 4:** Facilitate the use of informal, mini Litigation Review Committees (LRCs) for case evaluation and other purposes.

**Action Plan:** TLD routinely utilizes informal LRCs as a means of discussing case-specific issues, such as issues regarding liability, case strategy, and case valuation. Depending upon the issues being presented, deputies from other divisions who may have relevant expertise is also sought. This practice improves the level of service TLD is able to provide to its clients because the deputies have the benefit of group discussion and group knowledge on important case issues.

**Objective 5:** Reduce the number of meritless or frivolous lawsuits.
Action Plan: Emphasize to the deputies the need to immediately identify legally unsupportable claims and file dispositive motions at the earliest opportunity. Take a hard line with respect to settlements to send a message to the plaintiff bar and the courts that unless compelling reasons exist, cases will not be settled when the State has no liability, even for a nominal amount.

GOAL 2: RISK MANAGEMENT

Objective 1: Assist with State risk management efforts.

Action Plan: Encourage division deputies to provide pro-active advice and training to client agencies on ways to reduce their potential for tort liability. Continue compliance with Section 37-77.5, Hawaii Revised Statutes, which requires the Attorney General to advise client agencies regarding case resolutions and how to avoid future similar claims, by recommending corrective action that will eliminate or mitigate the factors contributing to the State’s exposure. The division supervisor and deputies will also continue to maintain a cooperative and collaborative working relationship with the State Risk Management Office at DAGS. The TLD supervisor continues a dialog throughout the year with the Risk Management office to address unusual or unique insurance coverage and liability issues.

Objective 2: Actively participate in risk assessment working groups.

Action Plan: The TLD supervisor continues to be the designated risk manager for the Department of the Attorney General, and in that capacity participates in meetings with the State Risk Manager and risk managers for the other State departments when requested.

Objective 3: Facilitate prompt resolution of appropriate cases in order to minimize loss to the State.

Action Plan: The TLD deputies are encouraged to participate in alternative dispute resolution in appropriate cases, as approved by the Attorney General, in an effort to resolve cases in a timely manner and limit expenditure of costs. More and more cases are being successfully mediated.

GOAL 3: PROMOTE A POSITIVE WORK ENVIRONMENT

Objective 1: Encourage open communication among all division members.

Action Plan: Continue to include clerical staff in meetings as appropriate, to improve communication and increase participation of all TLD personnel in matters of concern/interest to the division. The division supervisor will also continue to have an open-door policy and invite input/comments from all division staff regarding day-to-day concerns and/or input on how the division can be improved. If a problem exists between particular division members, the involved personnel are encouraged to discuss and address the problem or concerns.

Objective 2: For support staff, increase their understanding of the overall legal process (i.e., how their work “fits in” with the handling of a case).

Action Plan: As time permits, encourage staff members (both legal assistants and legal clerks) to attend trial sessions and hearings in order to facilitate a better understanding of the overall legal process and the integral part they play in TLD’s handling of a case. It is anticipated that this practice will facilitate positive morale and increase staff members’ pride in their work. This past year, staff members again attended depositions, court hearings and arbitration proceedings.

GOAL 4: MAXIMIZE USE OF DEPARTMENTAL/OTHER TECHNOLOGY
Objective 1: Facilitate increased proficiency among division staff in the use of ProLaw, iManage, departmental intranet, etc.

Action Plan: Encourage sharing of information and expertise among division staff, and take advantage of any training opportunities available in-house or from outside resources. TLD and CRLD have created a databank of expert depositions and expert information in iManage which is continually being updated with new experts and new information. Deputies and legal assistants are encouraged to attend training on Westlaw, in an effort to strengthen their legal research skills and keep up with newly available research tools.

PROCESS: Assessment will depend in large part upon input/comments from clients, as well as self-assessment through internal discussion and observation of staff morale and other indicators of progress, such as increased work pace, and productiveness.

In FY 2008, applications were submitted for a continuation of the human trafficking, family visitation center, targeted training to build effective offender programs, and anti-gun projects; approvals were pending at the end of the fiscal year.
- A new effort in 2008 was a partnership with the University of Hawaii through an agreement to use their Committee on Human Studies to review and approve federal grant applications that require an Institutional Review Board (IRB). IRBs determine if personally identifiable and/or other confidential information on individual persons will be handled in accordance with federal statutes and regulations. This agreement will facilitate research grant applications to the federal government.

Objective: Improve the administration of federal grants.

- Develop a multi-year strategy for the use of the Byrne grant that is outcome based. This has been completed.
- Assess Violence Against Women and Victims Of Crime grants as to the achievement of the intended goals. VOCA strategic plan assessment by the University of Hawaii was completed in June 2006.

Objective: Develop partnerships and collaborate with other organizations to sponsor efforts to prevent crime.

- Partner with at least one new partner. There has been a new partner every year. In FY 2007, the HITeC unit of the Criminal Justice Division and the DOH Maternal and Child Health Division were new partners in identity theft prevention and sex assault prevention efforts. In FY 2008, there were many new partners for Fraud Guidebook, Micronesian, Internet crimes and child pornography, and crimes in residential .
- Develop a Senior ID program for senior citizens to keep them safe. This has been completed.
- Maintenance of the Kupuna ID program. It was determined that the Executive Office of Aging was better suited to maintain and expand this program, and the program was successfully transferred to the EOA in September 2006.
• Partner with at least two agencies annually. The branches collaborated with more than 31 agencies. Collaborative efforts included community mobilization, truancy, Kupuna ID, minority youth in the justice system, and identity theft prevention.

Objective: Quality and timeliness of the JJIS data will be improved.
• Provide users with frequent reports on data discrepancies and timeliness of data entry. This has been completed.
• Frequency of timeliness reports will be increased to quarterly or monthly. As of January 2006, quarterly reports are produced.

Objective: Better utilize the JJIS web page.
• JJIC-related matters will be posted. Some working meeting notices and minutes are posted on-line.
• JJIS “software release” and FAQs will also be available. This has been completed.
• JJIS user manual and results of data summary requests will be on-line. The user manual is on-line as of November 2005.

Objective: Improve throughput and response time of requests.
• Significant portion of regression testing will be automated. This has been completed.

Objective: Move to a “next generation” of the JJIS.
• Complete needs assessment, system requirements, and design alternatives. This has been completed.
• Determine the platform for the next generation and the role of the geographic information system (GIS) in the next generation system. This has been completed.

GOAL 4 To promote and advance improvements to the criminal justice system response to communities, victims, and offenders.

Objective: Assess the public’s perceptions and concerns regarding crime and criminal justice in Hawaii.
• Begin development of survey instrument with input from agencies. Questionnaires were completed and mailed to the community in June 2006. Analysis was completed in FY 2007. The report was published in 2008.

Objective: Assess and prioritize staff involvement in multi-agency planning efforts.
• Determine which efforts to place staff and other resources. This has been completed.
• Check progress and status of multi-agency efforts to determine continuation. New efforts in FY 2007 included coordination of assessing offender services with evidence-based criteria, sexual assault forensic protocols and forensic science laboratory services. FY 2008, multi-agency planning efforts included community prosecution, automated victim notification system, and state victim assistance academy.

Objective: Implement a crime victim notification system.
• Facilitate discussion and development of a victim notification process among the county victim offices and the jail/prison. Discussions were done with the county victim coordinators and the Department of Public Safety. In FY 2008, the Department of Public Safety agreed to be the lead agency with support of victim service providers.
• Implementation of the victim notification system. In FY 2008, the division staff assisted DPS in applying for a federal grant to implement the system. The system will be implemented in FY 2009 with the federal grant.
Hawaii Criminal Justice Data Center

The Hawaii Criminal Justice Data Center is responsible for the statewide criminal justice information system (CJIS-Hawaii), the statewide Automated Fingerprint Identification System (AFIS), the statewide sex offender registry, and the issuance of state identification cards, and serves as Hawaii’s point of contact for the FBI National Crime Information Center program.

I. GOAL:

To implement additional strategic phases of CJIS-Hawaii enhancements including additional functions for “Lights Out” real-time identification, expanding paperless processing of the OBTS Arrest Form, Statewide Firearms Registration, additional automated interfaces with agency systems, and the Hawaii Integrated Justice Information Sharing (HIJIS) program.

II. OBJECTIVES:

CJIS-Hawaii, the statewide criminal history record repository, was implemented in November 2002 and we are now focusing on new initiatives for criminal justice in Hawaii.

A. CJIS-Hawaii Enhancements
   1. Implement additional functions for “Lights Out” real-time identification.
   2. Implement a new more accurate demographic searching algorithm for CJIS-Hawaii.
   3. Implement an automated interface with the City and County of Honolulu’s Department of the Prosecuting Attorney.
   4. Develop, test, and implement the Statewide Firearms Registration sub-system, including integration with the four county police departments’ records management systems.

B. Paperless Processing
   1. Expand paperless processing by integrating the booking module of the Maui County Police Department (MPD) with the integrated electronic booking system (Green Box).
   2. Expand the process of transmitting the OBTS Arrest Form electronically from the Green Box system to intake service centers and correctional facilities on Kauai, Maui, and Oahu, and to the City and County of Honolulu’s Department of the Prosecuting Attorney.

C. Start-up planning and design phases for the integration of the Temporary Restraining Order/Protection Order (TRO/PO) database with the National Protection Order File maintained by the FBI.

D. Hawaii Integrated Justice Information Sharing (HIJIS)
   1. Develop a tactical plan with our agency partners for the HIJIS program.
   2. Determine the technology platform for the HIJIS program, in conjunction with what we learn from the pilot project in Hawaii County.
   3. Pilot “single sign-on” with other state and county agencies using IBM’s Tivoli Enterprise Single Sign-On (ESSO) software.
   4. Establish a technical architecture standard for the HIJIS program.

I. GOAL:

The goal of the Criminal Identification Section of the HCJDC is to provide the statewide law enforcement agencies with the ability to make **accurate and timely** identification of arrested individuals, latent (crime scene) fingerprints and palmprints, and applicants who require fingerprinting pursuant to local, state, and federal laws. Real-time positive identification of offenders and applicants is the ultimate achievement.

II. OBJECTIVES:

In order to accomplish this goal, a “phased” approach is being used to achieve the level of technical and operational integration required. The following describes these major objectives:

A. “Lights Out” Processing
   a. Implement additional functions for “Lights Out” real-time identification.

B. Accurate and more timely electronic exchange of fingerprint and arrest data between the law enforcement agencies, the Hawaii AFIS, and CJIS-Hawaii.
   1. Convert Maui County to integrated livescan and mugphoto equipment.

C. Electronic exchange of identification and arrest/applicant information between the Federal Bureau of Investigation (FBI) and the statewide law enforcement agencies.
   1. Synchronize data from CJIS-Hawaii to the FBI’s Interstate Identification Index (III) now that we are a participating state.
   2. Continue the migration of additional counties to an automated interface of arrest information to the FBI’s Integrated AFIS (IAFIS).
   3. Begin planning and coordination to be a National Fingerprint File (NFF) participant.

D. Pilot Fast ID Devices
   1. Provide DigiScan devices to courts, intake service centers, and correctional facilities to confirm positive identification via fingerprints at every phase of the criminal justice process.
   2. Provide RapID devices to law enforcement officers in the field to allow real-time position identification via fingerprints of contacts without the necessity of transporting them to a booking facility.

Office of Child Support Hearings

The Office of Child Support Hearings is an office funded with state and federal funds that provides a fair and impartial administrative forum for the expeditious resolution of child support disputes. Once a part of the Child Support Enforcement Agency, the office has been a separate office of the department since 1992. The office has concurrent jurisdiction with the court in proceedings in which a support obligation is established, modified, or terminated. Attorney hearings officers issue orders establishing, modifying, terminating, and enforcing child support obligations.

OVERALL GOAL 1: Provide quality, expedited resolution of child support disputes

Short Term Goals: Continue expedited disposition of cases, low number of appeals and satisfaction of participants (parties, attorneys, Child Support Enforcement Agency (CSEA)) with the current process

Long Term Goals: Adjust capacity to handle caseload received from the CSEA as necessary and, where possible, develop and implement a process to expedite resolution of cases prior to scheduled dates of hearings

Objective 1: Maintain, and where possible, improve upon the expeditious disposition of cases and low numbers of appeals

Action Plan-Year 08-09:
- Develop and implement guidelines for prompt responses to pre-hearing requests
- Develop and implement guidelines for prompt resolution of hearing cases
- Develop and implement guidelines for prompt resolution of non-hearing cases
- Gather and analyze statistics to confirm that current disposition of cases remain expedited
- Gather and analyze statistics to confirm that the number of appeals from contested cases remains low

Action Plan-Years 09-13:
- Develop and implement plans if and as necessary to meet expected caseload from CSEA
- Continue to resolve cases prior to scheduled dates of hearings as appropriate

Measurements of Performance:

Success will be measured by statistics indicating whether the current expedited dispositions of cases and low appeal rates continue with changes in the caseload.
Success will be measured by statistics on the number of contested cases that are resolved prior to the scheduled hearings and by participant feedback surveys.

Objective 2: Maintain effectiveness of the administrative process.

Action Plan-Years 08-13
- Allow participants to evaluate and suggest improvements to the administrative process by developing and disseminating feedback surveys. Allow participants to express their compliments and/or concerns through such instruments.
- Implement improvements, as appropriate, to enhance efficiency and satisfaction with the administrative process.

Action Plan-Years 09-13:
- Continue re-evaluation of our mission, goals, objectives, and action plans through a strategic planning process involving OCSH, CSEA, private attorneys and hearing participants.
• Adjust our mission, goals, objectives, and action plans as appropriate.

**Measurements of Performance:**

Statistics of the number of cases adjudicated, disposition time, number of appeals and user evaluation results are measurements of satisfaction and efficiency of the administrative process.

**OVERALL GOAL 2:** Build upon excellence in work performance

**Action Plan- Years 08-13:**

- Continue periodic office meetings (weekly) as necessary
- Continue in-house training of support staff
- Provide hearings officer training with DHRD and CADR as funds are available
- Provide hearings officers with training through the HSBA Annual Divorce Law Update
- Provide training for at least one hearings officer per year to attend administrative hearing training through the National Judicial College, if funds are available
- Provide training for personnel as necessary, if funds are available
- Provide supervisor training, if funds are available

**Objective 2:** Provide updated resources for personnel

**Action Plan- Years 08-13:**

- Continue updating Hearings Officer Bench Book
- Continue to update memo banks and decision digests

**Action Plan- Years 08-13:**

- Continue open door policy for new ideas
- Encourage, solicit, develop, and implement personnel-initiated action plans for improving excellence in work performance

**Measurements of Performance:**

Statistics of the number of cases adjudicated, disposition time, number of appeals and user evaluation results are measurements of satisfaction and efficiency of the administrative process.

**OVERALL GOAL 3:** Foster meaningful participation in the hearings

**Short Term Goals:** Provide informational classes to participants of the administrative process

**Long Term Goals:** Increase meaningful participation in the administrative process
Action Plan-Years 08-13:
- Plan, schedule and conduct informational class for hearing participants; obtain feedback on the class; evaluate feedback; meet demand for more classes, if any
- Obtain feedback on the OCSH website and make improvements as appropriate
- Research the possibility of providing a class video through the OCSH website and make it available, if appropriate
- Seek other training forums such as the Family Law Section of the HSBA, educational television programs, and public seminars
- Evaluate effectiveness of training, modify programs and expand delivery as appropriate

Measurements of Performance:
Success will be measured by surveys on whether participants in the administrative process obtained helpful knowledge from classes and the OCSH website and whether such knowledge helped them participate meaningfully in the hearings.

OVERALL GOAL 4: Improve quality of Neighbor Island hearings and telephone hearings in general

Short Term Goals: Improve the quality of voice connections from neighbor island hearing rooms

Long Term Goals: Develop audio-video alternatives through the internet, providing such alternatives are affordable and of sufficient quality; allow Hearings Officers to travel to Neighbor Islands to conduct hearings

Objective 1: Research costs of audio-video alternatives through the internet so that information will be available when funds are available

Objective 2: When funds are available, allow Hearings Officers to conduct hearings on the Neighbor Islands

Measurements of Performance:
Success will be measured by participant feedback surveys on the quality of voice connections; success will also be determined by the completion of research on alternate audio-video capabilities, and whether Hearings Officers have been allowed to travel to the Neighbor Islands to conduct hearings

OVERALL GOAL 5: Reduce costs and energy consumption wherever possible

Short Term Goals: Increase awareness of need to reduce, reuse, and recycle; implement changes wherever possible

Long Term Goals: Same as short term goals

Objective 1: Disseminate energy and cost cutting information as appropriate

Objective 2: Implement changes as appropriate

Measurements of Performance:
Records of costs for office expenditures
