

00:12:54 Carrie Ann Shirota: At this past week's 'Aiea meeting, Bettina presented. They continue to push for the development of the jail, and have not presented the concerns of the community and alternatives of incarceration.

00:14:34 Carrie Ann Shirota: The community seems interested in alternatives to incarceration. I heard that Architects is planning to ask the 'Aiea Board to support the new jail. This is great opportunity for the community to hear from the Oversight Commission.

00:22:59 Carrie Ann Shirota: Bettina and a rep from DAGS did not know how much the new jail would cost.

00:27:47 Angie McFarland: Kat I look forward to your notes. I will have to drop off in a little while.

00:33:07 Angie McFarland: waiawa went in lockdown yesterday due to positive covid

00:33:52 Angie McFarland: I thought staff were required to get vaccinated

00:34:00 Diana (she/her): Any inmate or staff cases at WCCC? There was a lockdown there.

00:34:14 Missy Rice: Are there any staff positives at Saguario?

00:35:02 Carrie Ann Shirota: Are they conducting random testing in the facilities?

00:36:15 mike's iPad: California Prison Moratorium Project (calipmp.org)

00:36:56 Kat Brady, CAP: Saguario doesn't report staff cases because it is aa private/corporate prison. This is crap because our people are there and we have responsibility for them.

00:37:33 Angie McFarland: I'm hearingv

00:37:48 Kat Brady, CAP: Max reported 44 cases at WCCC

00:38:05 Angie McFarland: that sanitizers at Waiawa were empty. no new masks issued

00:39:00 Carolyn: 44 inmates out of total number, a hundred?

00:39:08 Diana (she/her): The masks are one-size fits all and they don't really fit anyone.

00:40:16 Carrie Ann Shirota: We're over two years into the pandemic. Every incarcerated person should have a 2 weeks supply of masks since they can not socially distance.

00:40:33 Diana (she/her): I think there is close to 200 capacity at WCCC.

00:41:27 Diana (she/her): I was told that at WCCC they are only allowed to have one mask at a time. Will try to confirm.

00:43:37 Carrie Ann Shirota: Did PSD consult with the NIC for technical assistance on jail planning? They recommend a systems approach to reducing the population.

00:44:29 Joanne I: shouldn't inmates be wearing at least surgical masks? many in the cmnty are wearing KN95 or N95 because of the infectious nature of omicron.

00:45:26 Carrie Ann Shirota: Agree with Joanne. They need the highest quality masks available.

00:49:16 Angie McFarland: mant inmates have had the same cloth mask for months.

00:49:34 Carrie Ann Shirota: We ask that you support these bills in principle.

00:50:07 Carrie Ann Shirota: 1/26 is cut off

00:53:10 Carrie Ann Shirota: We will forward the bills as soon as they are finalized.

00:55:26 Angie McFarland: add to it that the cloth masks arent being properly cleaned and being used for months!

01:07:25 Angie McFarland: when they feel sick they dont go to medical for fear of repercussions so cases are not accurate!!

01:54:39 Carrie Ann Shirota: Virtual meeting. Senators and Reps. Attend.

01:54:41 Diana (she/her): How about including in the report and one-page overall timeline, since the inception of the commission, to summarize the activities of the commission and total number of community concerns and complaints. And the way the lack of funds, staff, and a director has hampered the Commission's work.
